

VISION

SAFETY EYEWEAR

TYPE-C

EYEWEAR PROTECTION

When long hours demand constant visibility, Vision Type-C delivers lightweight protection without distraction. A pre-curved, single-piece wraparound lens expands coverage while maintaining a low-profile fit. Advanced antifog and scratch-resistant coatings keep vision clear through heat, movement, and changing conditions.

FEATURES

- 1 Pre-curved single-piece lens expands field of vision and improves coverage.
- 2 Advanced antifog coating maintains clarity in high-output environments.
- 3 Scratch-resistant lens holds up against daily wear and jobsite contact.
- 4 Lightweight frame construction reduces fatigue during extended use.
- 5 Soft nose and ear padding with debossed grip pattern improves comfort and stability.
- 6 Wraparound design enhances protection from particles and debris.
- 7 UV protection lens blocks harmful rays during outdoor use.
