

## DISPOSABLE TOWEL DRAPES

Dynarex Disposable Towel Drapes are designed to provide a reliable sterile barrier for minor surgical and therapeutic procedures. Constructed with 3-ply (tissue/poly/tissue) materials, the drapes offer absorbency while helping to reduce the risk of moisture or bacteria migration. These convenient, single-use drapes help support infection control protocols across various clinical settings. Available in both plain and fenestrated options to suit a variety of procedural needs.

- For use in minor surgical or therapeutic procedures where a sterile field or drape is required
- Poly-interlined, 3-ply construction (tissue/poly/tissue) provides absorbency while helping to prevent preventing moisture or bacteria migration
- Disposable design offers added convenience and optimal hygiene
- Available in both fenestrated and plain

4409	Fenestrated 18" x 26"	50 / bx	6 bxs / cs
4410	Plain 18" x 26"	50 / bx	6 bxs / cs
