HYDRAULIC PATIENT LIFT

ITEM 10704

ITEM 10704-SC – WITH SCALE

The Dynarex Hydraulic Patient Lift is designed to help providers move patients with dignity. The lift is equipped with an adjustable base for safe transfers and accommodates a weight capacity of 450 lb. Compatible with most standard slings, it allows caregivers to seamlessly transfer patients with limited mobility from a variety of locations – including out of bed, into the shower, and off the floor.

- High performance hydraulics gradually raise and lower patients
- Compatible with most standard slings
- Weight capacity 450 lb.
- Ideal for a wide range of medical and care environments
- 5 year workmanship warranty, 1 year mechanical warranty
- HCPC EO630
