Profile Performance Series™

JB965SDSS - GE Profile Performance™ 30" Free-Standing CleanDesign Electric Range

Dimensions and Installation Information (in inches)

*Dimension from wall to front of closed door.
Dimension from wall to front of closed door handle is 27-3/8".

Specification Created 8/01

KW Rating	
240V	12.4
208V	9.3
Breaker Size	
40 Amps	

A properly grounded branch circuit with a 3 prong grounding type receptacle is required for GE ranges.

Receptacle Locations
Locally approved flexible service cord or conduit must be used because terminals are not accessible after range installation. See shaded area in drawing for location of electrical outlet box. Recommended outlet locations allow range to be installed directly against wall.

Note: Conforms to U.L. requirements for 0" spacing for adjacent walls below countertops. To reduce possibility of scorching of walls, it is recommended a minimum of 1-1/2" spacing be allowed from adjacent side walls to allow for possible extended, high-heat, no-load heating element operation.

Installation Information: Before installing, consult installation instructions packed with product for current dimensional data.

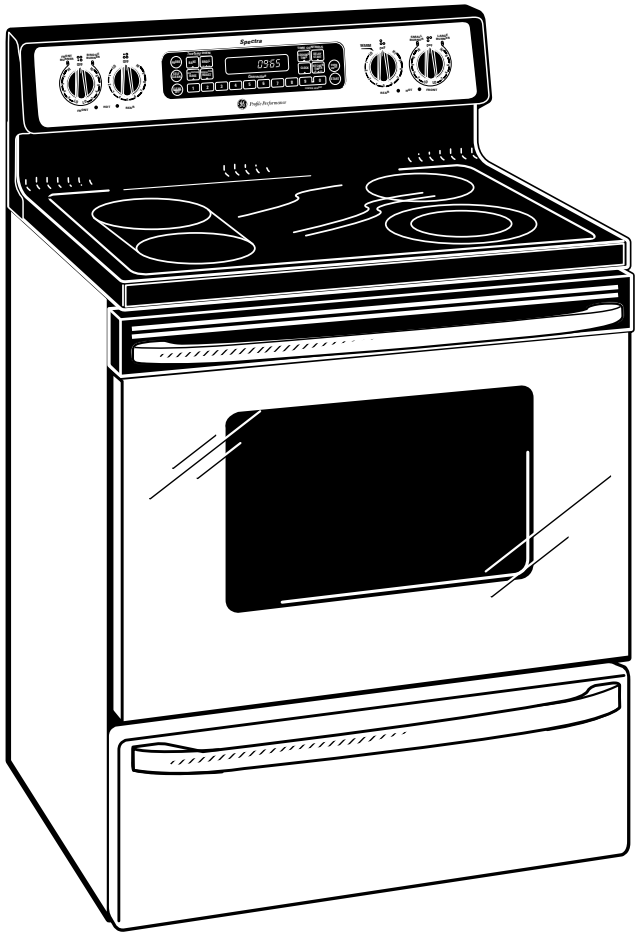

For answers to your Monogram,® GE Profile™ or GE appliance questions, visit our website at GEAppliances.com or call GE Answer Center® service, 800.626.2000.

All GE ranges are equipped with an Anti-Tip device. The installation of this device is an important, required step in the installation of the range.
