

A woman in the foreground is using a ProTeam backpack vacuum, holding the long, flexible hose. Another woman in the background is also using a similar vacuum. They are in an office environment with desks and chairs. The image has a purple tint.

PROTEAM® GOFIT® 3 / 6 CORDLESS SERIES

Get Comfortable with cordless efficiency.

Experience the productive power of ProTeam's
latest battery-operated backpack vacuums.

 **ProTeam**®

Cleans up to
30% faster
 than a corded backpack

&
500% faster
 than an upright vacuum

Cordless. Comfortable. Efficient.

Introducing our most advanced line of powerful battery-operated backpack vacuums.

Experience comfort and cordless efficiency with the ProTeam GoFit 3 / 6 Cordless Series from the industry leader in innovative backpack vacuum technology. Your team will benefit from the enhanced freedom, comfort and maneuverability to clean in even the hardest-to-reach places. Your business will enjoy greater productivity, operational cost and labor savings, and the ability to take on cleaning challenges in a wide variety of environments.

PERSONALIZE YOUR EXPERIENCE

Choose our new 3-quart size for those with a smaller frame or our best-selling 6-quart size, both free from the constraints of cords and potential tripping hazards.

Clean with cordless efficiency.

Here's why the GoFit 3 / 6 Cordless Series is a more productive, efficient, and comfortable fit for the way you clean.

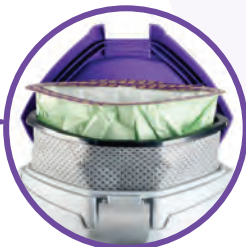

CUSTOMIZED FIT
Enjoy a personalized/balanced fit with the vacuum's quick-adjust, 4-step, FlexFit® harness system. *(more on pg 8)*

EASY-TO-USE POWER SWITCH
A convenient power button located on the side of the unit for easy access and reduction in wear parts.

BRUSHLESS MOTOR REDUCES COST OF OWNERSHIP
Powerful and highly efficient without carbon brushes to maintain and produces no carbon dust.

MULTI-LAYERED PROLEVEL FILTRATION®
The units' three levels of filtration include an Intercept Micro® Filter, Micro Cloth Filter & Dome Filter made with HEPA Media that collects more than 99% of indoor pollutants one micron or larger.

NOTICEABLY QUIET
Quietly clean around others without disturbing them.

IMPROVED SAFETY
Helps to eliminate tripping and obstacle concerns and is easy to maneuver even in tight spaces.

CONTINUOUS OPERATION
Long-lasting battery power means only two batteries are needed for continuous operation.

EASY MANEUVERABILITY
With a reduced profile/weight balance, these nimble units redefine mobility and go anywhere without the constraints of cords and power outlets.

RAPID RECHARGE BATTERY TECHNOLOGY
Featuring a 4Ah Lithium-Ion battery for a lighter-weight quick-cleaning solution, or the 8Ah Lithium-Ion battery, both with rapid recharge capabilities.

UNINTERRUPTED CORDLESS POWER
Battery charge time is approximately equal to battery runtime, making it convenient to quickly swap batteries from charger to vacuum for continuous cord-free operation.

EASY-TO-READ CHARGE STATUS AND BATTERY FUEL GAUGE
Charger indicator light will turn solid red after inserting battery (standby mode). When charge cycle begins the indicator will change from solid red to flashing green. When charger indicator light changes from flashing green to solid green, battery is 100% charged.

Battery Fuel Gauge indicates the approximate runtime remaining on the battery pack when the display button is pressed. 4 lights: 80%-100%; 3 lights: 60%-80%; 2 lights: 40%-60%; 1 light: 20%-40%; 1 flashing light: Less than 20%.

SINGLE-LATCH ACCESSIBILITY
Easily change the filter bag with one hand.

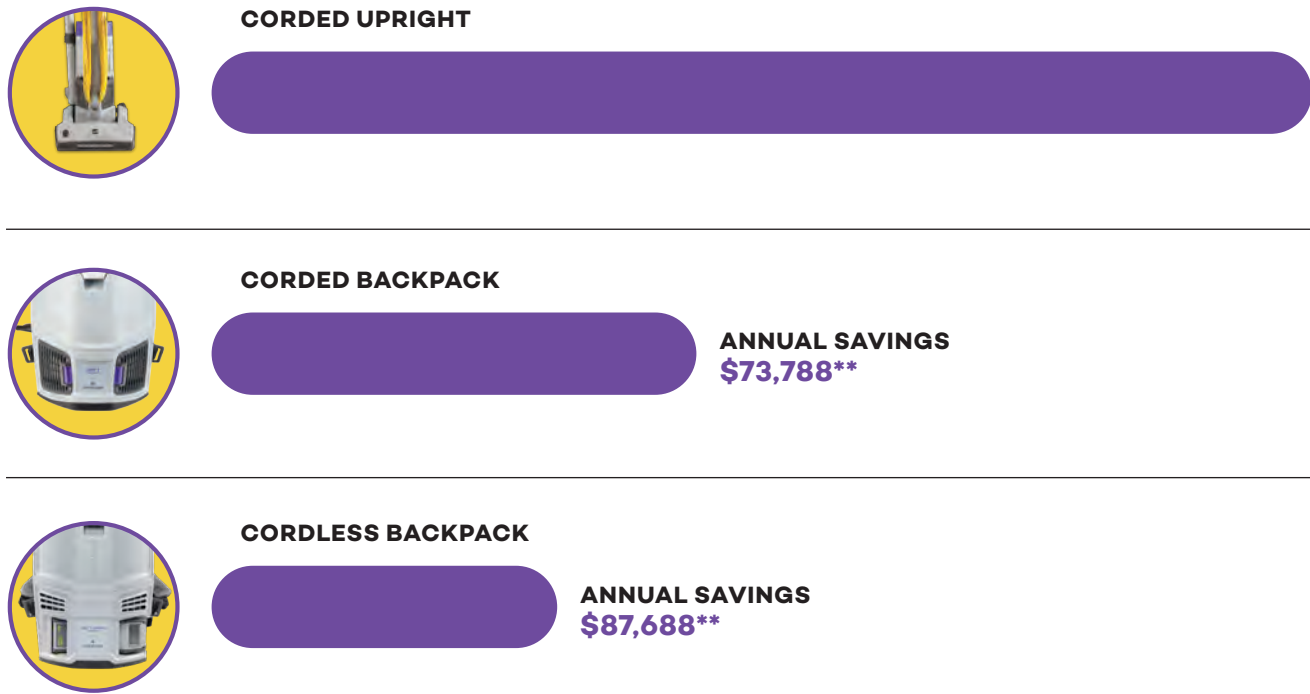

SCAN THE CODE AND WATCH THE VIDEO TO LEARN MORE.

Experience a 30% increase in productivity.

Productivity remains as one of the top five challenges facility managers face today¹. More than 79% of building service contractors spend over half of their operating budget on labor². Transitioning to cordless vacuuming can dramatically increase an organization's annual labor savings.

Time needed to vacuum 100,000 SQ. FT.

*ISSA 612 Cleaning Times **Annual savings based on \$13/hr wage

**COMFORTABLY
GO ANYWHERE**

Redefine mobility and go anywhere
without the constraints of cords
and power outlets.

Go anywhere uninterrupted.

Vacuum more with the GoFit 3 / 6 Cordless Series, which features an all-new energy-efficient motor. And with two battery options designed to be interchangeable with each vacuum model, discover extended runtimes without sacrificing ProTeam’s widely recognized high performance.

HIGH / LOW POWER BUTTON
Adjust the speed based on your cleaning challenge for greater power or to extend runtime. Press once for high when tackling larger cleaning challenges and twice for a lower, daily clean. Press three to turn off.

Runtime and charge time

	RUNTIME	RAPID RECHARGE
 4AH LITHIUM-ION BATTERY A lighter weight, quick cleaning solution.	On High: 39 mins* On Low: 51 mins*	Full Charge Time: 61 mins*
 8AH LITHIUM-ION BATTERY For larger areas that require a longer runtime.	On High: 83 mins* On Low: 106 mins*	Full Charge Time: 101 mins*

*Listed times are approximate

EXTENDED RUNTIMES

Go anywhere uninterrupted with a runtime of approximately 106 mins. on low and 83 mins. on high with the 8AH Lithium-Ion battery option.

Stay comfortable while being more productive.

Our battery-operated backpack vacuums are designed to be as comfortable as they are efficient and productive, utilizing the GoFit harness system.

INCREASED BREATHABILITY

Increases air circulation, reducing warmth and moisture accumulation.

QUICK-ADJUST HARNESS

No tools required - quick adjust system moves upper harness up and down to fit users perfectly.

INTERCHANGEABLE HARNESS

Allows each user to have their own custom-fitted harness.

WIDER AND LONGER LOWER HARNESS

Distributes the weight of the unit for greater comfort.

Our 4-step quick-adjust harness system offers new levels of comfort.

Adaptable to all body frames and numbered with intuitive touchpoints for a custom comfortable fit, this harness is designed to rest comfortably on the user's hips for hours of wear and productivity – **all with no tools required.**

1

Adjust the upper harness height for customized balance and fit.

4

Buckle and adjust the sternum strap, then hit the power and get your clean on.

2

Buckle the waist belt and pull the loose ends for increased weight support.

3

Adjust the shoulder straps to turn comfort up a notch.
