Customer Service

1300 Virginia Drive,
Suite 401

Ft. Washington, PA 19034

Please visit our web site at:

www.dmisports.com

When contacting DMI Sports, please provide your model number and item number (if applicable) if requesting a replacement part.

Item numbers can be found inside this owners manual.

Your Model Number **MFT801** _____

Your model number is also located on the original carton. These instructions are also available online at: www.dmisports.com.

IMPORTANT!

Please Keep Your Instructions! (You will need your Model number should you need to contact us.) Before attempting assembly, please read through this instruction book to familiarize yourself with all the parts and assembly steps. We recommend that two adults assemble this table. Please refer to the Parts Identifier on the following page and be sure that all parts have been included. Although extremely rare, occasionally a part may be missing. If you are missing a part, or if you have any questions, please call our customer service department at 1-800-399-4402 Mon-Fri between the hours of 9:00am and 5:00pm E.S.T; or you can reach us at: www.dmisports.com.

Do not return the game to the store. Please contact us first at: 1-800-399-4402 or on our website at: www.dmisports.com.

TWO ADULTS ARE REQUIRED TO ASSEMBLE THIS POOL TABLE

INSTRUCTIONS FOR LEVELING A POOL TABLE

- Assemble pool table according to the instructions.
- Any type of level would be sufficient to perform this procedure. However, a two-foot level is recommended.
- Before leveling, make sure level is placed on the playing surface, not the rails.
- Level the ends between the corner pockets: Place the level on the playing surface between the two corner pockets and adjust the height by placing wood shims underneath the leg opposite of which the bubble in the level favors until the bubble rests in the middle of the level.

- Repeat the step above to the opposite corner pockets.
- Next, level the length of the table. Place the level next to the side pocket and adjust the height to position the bubble in the middle of the level, using the wood shims beneath the leg opposite of which the bubble in the level favors.
- Repeat the step above to the opposite length of the table.
- Recheck both short ends to ensure bubble is in the middle on the level.
- Depending on the surface the pool table sits, especially deep pile carpeting, the pool table needs to settle for 24 hours. Recheck the level on each side of the table after 24 hours.
