

Extra Large Clothes Airer

LA029005FEU7

Please retain instructions for future reference.

Care and use

To ensure the safe and proper use of the airer, it is important to follow specific care instructions. When collapsing the airer, firmly grasp the top and unclip one side before maintaining your hold as you unclip the other side, gently pushing it towards the ground. For optimal longevity and to prevent damage, never move the airer once laden or drag it, as this may put unnecessary strain on the legs. Always load the airer evenly, starting from the lower bars, and avoid overloading it by distributing weight accordingly. It is crucial to use the airer solely indoors. When removing sock clips, carefully lift one edge and remove it from the bar.

Made in **China**.
