

DynaFoam™

Waterproof Dressings

Bordered

ITEM 3037 4" × 4"

ITEM 3038 6" × 6"

A sterile, waterproof adhesive foam that provides a warm moist healing environment. The multi-layer design helps protect and prevent bacterial contamination while promoting healing.

- Maintains a warm, moist healing environment to help prevent bacterial contamination, reduce pain and promote faster healing
- Multi-layer dressing with low adherent contact layer that helps protect the wound bed and waterproof top layer which protects from outside fluids
- High absorbency sterile dressing used for heavily exuding wounds
- Primary or secondary dressing to manage chronic and acute wounds at stages 2, 3 and 4
- Suitable for use on lower extremity ulcers, donor sites and partial to full thickness wounds
- 10 per box, 12 boxes per case
