

DynaGo™ Flex - Adjustable Height Rollator

The DME Care Solutions DynaGo Flex Rollator is a compact 4-wheel rollator with adjustable seat height and a lightweight aluminum frame, designed to help users navigate both indoor and outdoor spaces with comfort and confidence. Ideal for hospitals, medical facilities, long-term care, and home care environments.

- Lightweight and compact aluminum frame with 6" non-marking wheels
- Seat height adjusts from 17.8" to 21.6" to accommodate a variety of users
- Adjustable arm height from 29" to 38" for customized comfort
- Tool-free removable, curved, padded backrest
- Removable legs and handles for compact shipping and easy transport
- Padded seat flips up to under-seat pouch for convenient personal storage
- Folds easily for convenient storage
- Ideal for hospitals, long-term care, and home care environments.
