

A close-up, vertical photograph of a construction worker. The worker is wearing blue safety glasses, a grey long-sleeved shirt with a high-visibility yellow and orange stripe, and dark work gloves. They are focused on a task, with their hands near a white shower pan or tray. The background consists of vertical wooden planks. The lighting is bright, suggesting an indoor construction site.

STERLING
A KOHLER COMPANY

STERLING[®]

VIKRELL[®]

SHOWERS

MEDLEY[®] & **TRAVERSE**[®]

DESIGNED FOR PROS. BUILT TO LAST.

Made from ultra-tough Vikrell® material, Traverse® and Ensemble Medley® products were created for trade professionals who demand fast and easy installation, rock-solid durability, and the right combination of value and design features.

The interlocking shower walls snap into place for a watertight seal without the need for caulk, reducing the need for call backs. The solid Vikrell material resists scratches, stains, and pretty much anything else the job site or your customer can throw at it.

Easy to install, built to last, and backed by Kohler. Now that's a winning combination.

Center-drain showers feature GUARD+® shower base for caulkless installation and superior water containment.

Showers feature interlocking design and innovation Dry-Block™ seal to prevent leaks.

Solid Vikrell® material ensures strength, durability, and lasting beauty.

Transitional design provides an easy-to-clean surface.

Molded-in shaving ledges offer convenience.

Shelving provides plenty of space for shower accessories.

MEDLEY® SHOWERS

Smooth, easy-to-clean walls, built-in corner shelves and time-saving installation make Medley showers the perfect combination for both trade professionals and their customers. Solid Vikrell® material resists scratches, stains, and the other abuses of daily life, and watertight, interlocking joints make for a fast, easy, and caulkless installation. The Medley collection also includes bath/shower combinations.

Walls feature a contemporary subway tile design.

The four-piece wall set features the Pro4™ installation system for easy handling.

Full-length shelving provides plenty of space while concealing the seam.

TRAVERSE® SHOWERS

With its stylish subway tile design, construction of Vikrell® material, and snap-together caulkless installation, the Traverse shower hits all the right notes for trade professionals and homeowner alike. The Pro4 installation system splits the back wall into two pieces, so you can move it around corners, up and down stairways, and through doors with ease. The full-length shelf along the back wall creates a seamless look while providing plenty of space for shower accessories. The Traverse collection also includes bath/shower combinations.

36" x 34" SHOWER
