CurPro Dermal Curettes are precision-crafted, single-use instruments designed for efficient dermal procedures. Featuring a sharp, symmetrically ground beveled cutting edge and a textured ergonomic handle, these curettes offer superior control and comfort during use.

- Precision instrument designed for a variety of routine dermal procedures
- Symmetrically ground beveled stainless steel cutting edge offers sharpness and precision
- Textured ergonomic handle provides enhanced comfort and control
- Rigid, closed-end translucent blade guard adds safety during use
- Individually packaged in sterile, peel-apart pouches for convenience and hygiene
- Disposable, single-use design reduces the risk of cross-contamination
