

## Check out the lip on OmniEdge™ rulers

OmnEdge™ rulers have the features of standard Omnigrid® rulers, but each has the added benefit of having a lip that catches on the cutting mat to keep the ruler from slipping while you're cutting.

- **Highlighted outer edges** reduce cutting errors when trimming 1/4" seam allowances
- **Numbers and marks highlighted** for easy reading
- **Patented double sight-lines** show on light and dark fabrics
- **Ideal for cutting straight and bias pieces** for easy pivot of 30°, 45° and 60° cuts
- Includes **45° and 60° angle lines** and **1/8" grid**

Lip catches on mat to keep ruler from slipping

Remove lip to position ruler as desired
