Component List

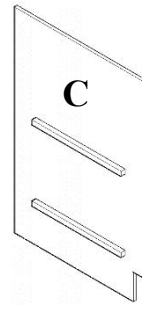

Large Frame (1 PC)

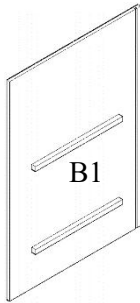

Small Frame (1 PC)

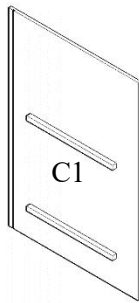

Left Side Panel (1 PC)

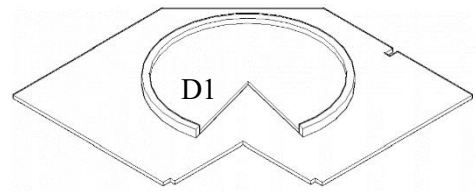

Right Side Panel (1 PC)

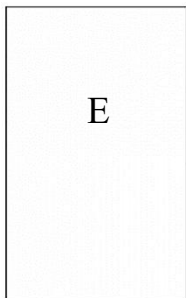

Left Back Side Panel (1 PC)

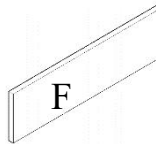

Right Back Side Panel (1 PC)

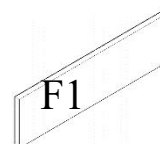

Bottom Panel (1 PC)

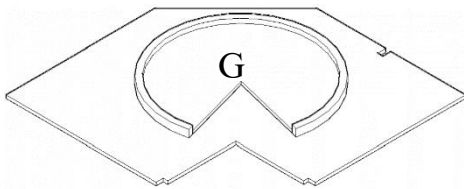

Back Panel (1 PC)

Left Cabinet Toe Kick (1 PC)

Right Cabinet Toe Kick (1 PC)

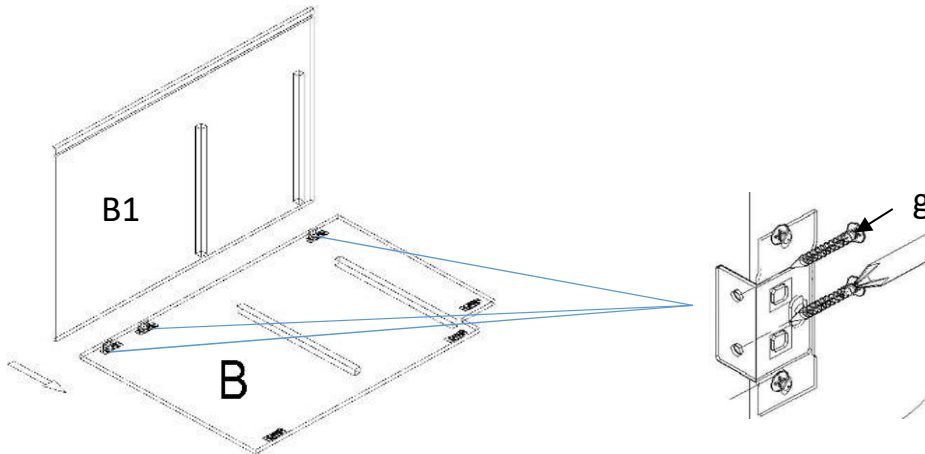

Shelf (1 PC)

Strip Panel (1 PC)

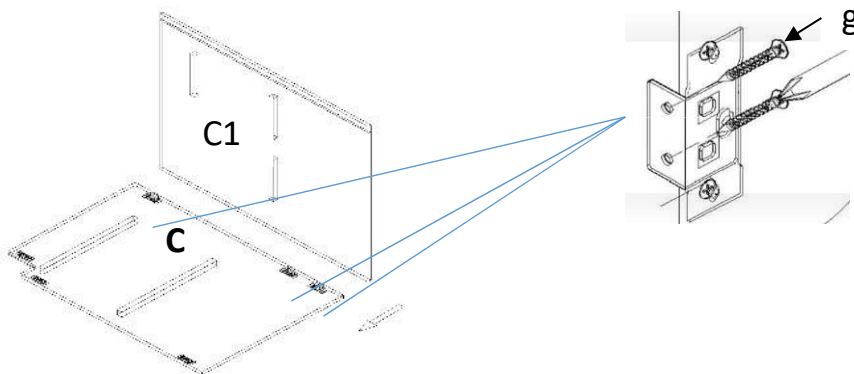

Step 1

Put the left side panels (B) and left back side panel (B1) together with three metal clips. Each metal clip will need 2 screws (g).

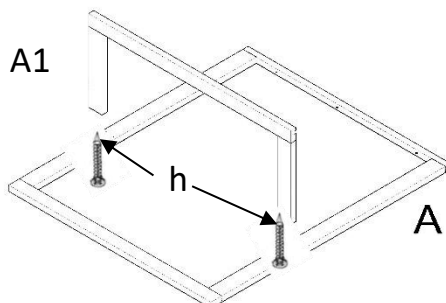

Step 2

Repeat step 1 for the right side panel (C) and right back side panel (C1)

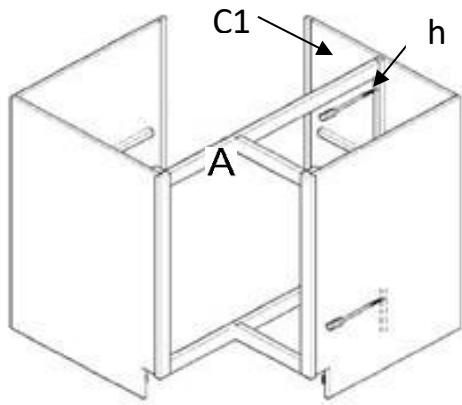

Step 3

Attach the large frame (A) and small frame (A1) together; Use the long screws (h) to connect the Large frame (A) to the smaller frame (A1), two long screws (h) per side.

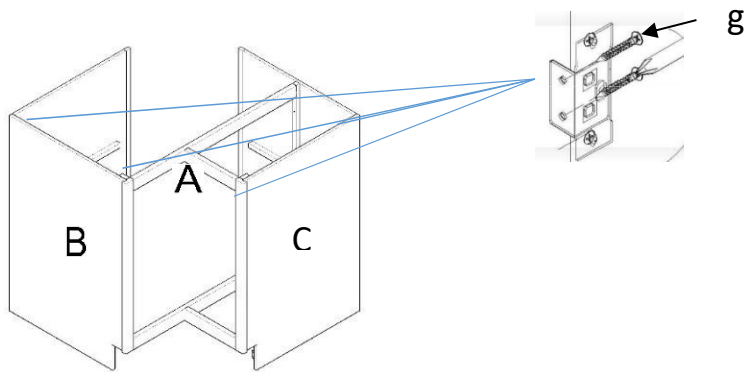

Step 4

Attach the Large frame (A) to the right back side panel (C1) with 2 long screws (h).

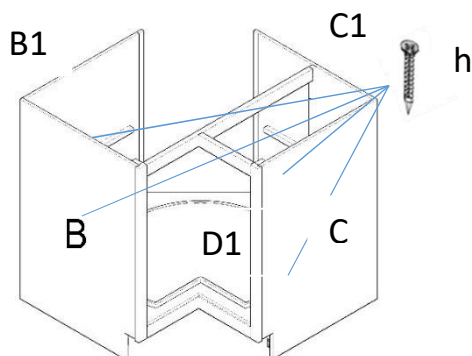

Step 5

Slide the right side panel (C) and left side panels (B) into the grooves on the large frames (A) and small frame (A1), secure with metal clips. Each male metal clip will need 2 screws (g).

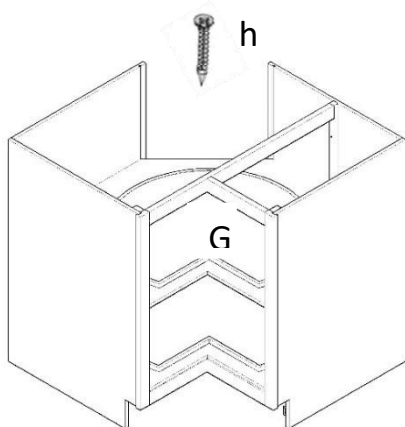

Step 6

Attach the bottom panel (D1) lazy Susan to the wood blocks provided on the left side panel (B), right side panel (C), left back side panel (B1), right back side panel (C1) using the long screws (h) in the pre-drilled holes, two long screws (h) per side panel.

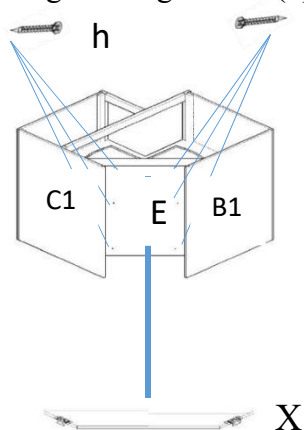

Step 7

Repeat step 6 for the Shelf (G) in the middle Lazy Susan with 8 long screws (h).

Step 8

Insert the Back Panel (E) between right back side panels (C1) & left back side panel (B1); using the long screws (h) and the predrilled holes, three long screws (h) per side.

Step 9

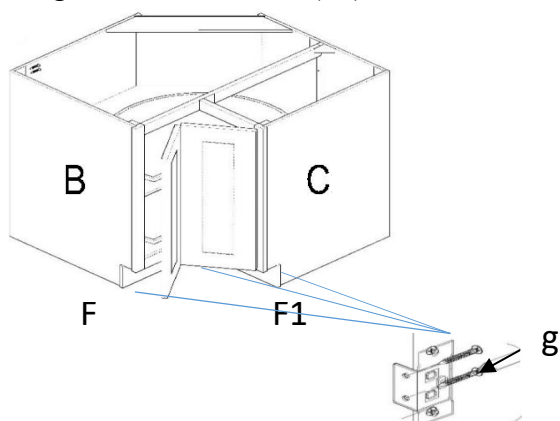

Attach the strip panel (X) brace using two metal clips attaching between right back side panel (C1) & left back side panel (B1). Each male metal clip will need 2 screws (g).

Step 10

Install the door on the left side or the right side (Reversible).

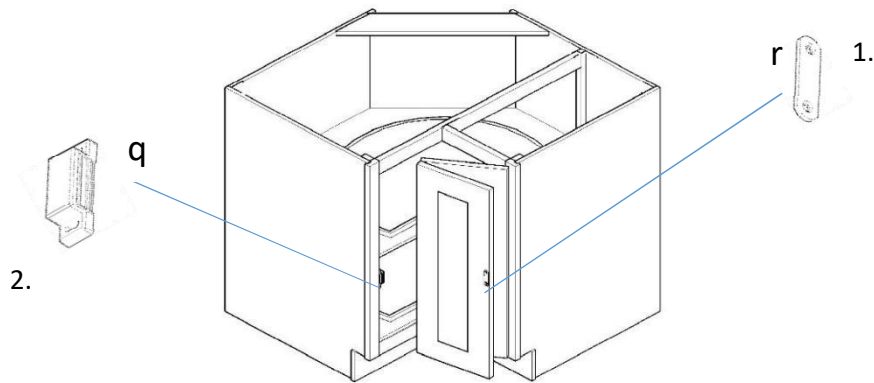

Step 11

Install the left cabinet toe kick (F) & right cabinet toe kick (F1) with two metal clips to the left side panels (B) and right side panel (C), and one metal clip connecting left cabinet toe kick (F) & right cabinet toe kick (F1).

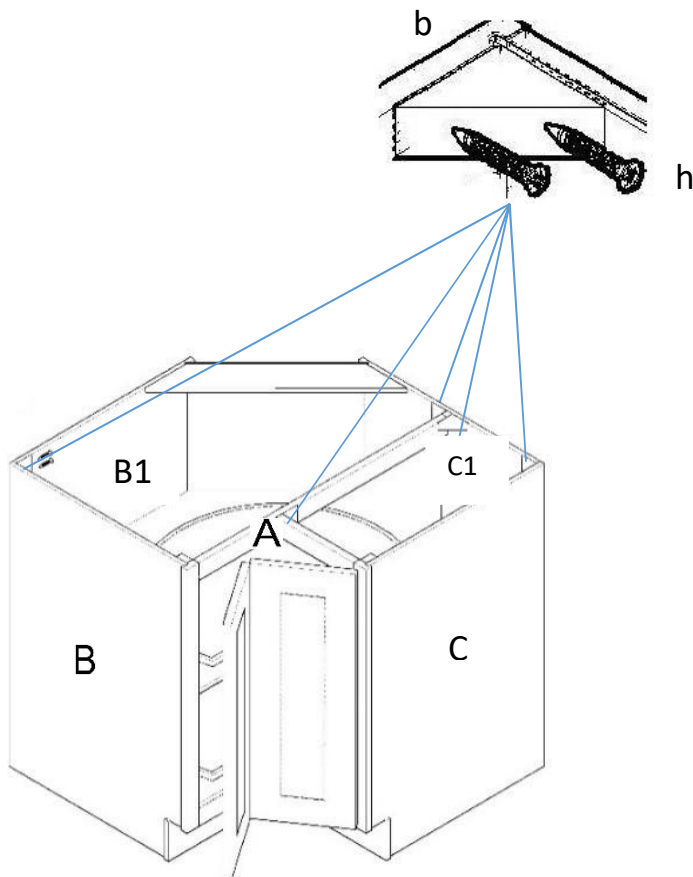

Step 12

1. Magnetic Latch: Install the magnet catches (r) to the back of the door, using two screws.
2. Install the plastic catches (q) to large frame (A), using the two screws.

Step 13

Use 2 long screws (h) to attach the corner lock (b) to the left side panel (B), right side panel (C), left back side panel (B1), right back side panel (C1) and large frame (A)

Step 14

This cabinet is shipped unfinished. Apply paint or stain to all exterior surface to properly seal and protect the wood prior to installation. The interior surfaces may be left unfinished if desired.
