

CRC® Extreme Duty Silicone

Product Description

Best for metal-to-metal and non-metal equipment exposed to harsh conditions. Don't let any friction get in the way. With a wide working temperature range of -100°F and 400°F, CRC® Extreme Duty Silicone prevents sticking, binding, and wear even when equipment is exposed to rain, sun and snow. Fast-drying and colorless, it creates a non-staining barrier that repels water and dirt. Use it to protect equipment like conveyors, belts and rollers from the moisture and corrosion that causes problems you can't afford.

Advantages vs multi-purpose lubricants: This applies a longer-lasting lubricating film that is safe on most plastics and seals, and withstands higher temperatures. It is a clear and non-staining formula with a dry finish that won't attract grime.

Applications

Plant conveyors, guides and rails, mold release agents, vending machines, electric motors and rollers and sliding mechanisms

Identification

Item Number / Case Number	1003285 / 1003284
Legacy Number	03030
Unit Package Description	16 Ounce Aerosol
Net Fill	10 wt oz
UPC Code	078254030302
Unit Dimensions	7.75H x 2.63W x 2.63D in
Units Per Case	12

Properties

Appearance	Clear Colorless Liquid
Base Type	Silicone
Boiling Point (F/C)	123°F / 50.6°C
Dielectric Strength	Not Determined
DOT Proper Shipping Name	Aerosols, Flammable, Limited Quantity
Evaporation Rate	Not Determined
Flash Point (F/C)	1.4°F / <-17°C
Flammability LEL % / UEL %	1.2 / 7.3
Flammability Class - CPSC	Extremely Flammable
NSF Category Code	H2
Odor	Mild Solvent
Plastic Safe	Safe on Most Plastics (test small area)
Propellant	HFC-152a
Restricted From Sale In:	
Solubility	Water - Negligible
Spec Gravity Concentrate	0.67
Vapor Density	> 1 (air=1)
VOC % (Consumer Product def)	60
VOC Category	Silicone Based Multi-Purpose Lubricant
Working Temp (F/C)	-100 to 450°F / 204.4°C

Sizes

10 wt oz	03030
----------	-------
