Mobile OS	iOS/Android via Cync App

Smart Switch Includes:

- Dimmer + Motion Sensing Smart Switch
- Faceplate
- (4) Mounting Screws
- (4) Wire Nuts
- Wire Labels
- Installation Guide

Wireless Home Control

Install smart bulbs in other fixtures and wirelessly control all your lights from the Smart Switch or from the Cync App.

Makes Traditional Lights Smart

Turn ordinary bulbs into smart bulbs with enhanced functionality like out of home control, scheduling and setting scenes.

Always Connected and Ready

The Smart Switch maintains voice and app control at all times, even when the wall switch is turned off.

Built in Motion Detection

Motion and ambient light detection turn lights on or off based on the amount of natural light or motion in the room providing hands-free control and energy savings.

Wirelessly Connect

Connect multiple switches without a travel wire required and connect switches on different circuits, like controlling a kitchen light from the hallway.
