

TRUFIG

BY SONANCE

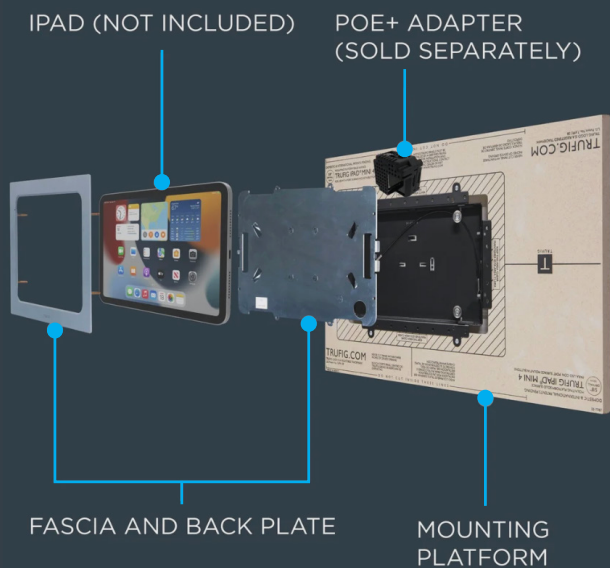

IPADS | TOUCH PANELS | VOICE CONTROL

TRUFIG solutions for iPad allow surface mounted iPads to be moved into the architecture for a sleek finish that is flush-mounted, revealing only the functional surface of the iPad. TRUFIG mounting solutions are now more flexible to support the form factors and charging requirements of all iPads, including those equipped with USB-C.

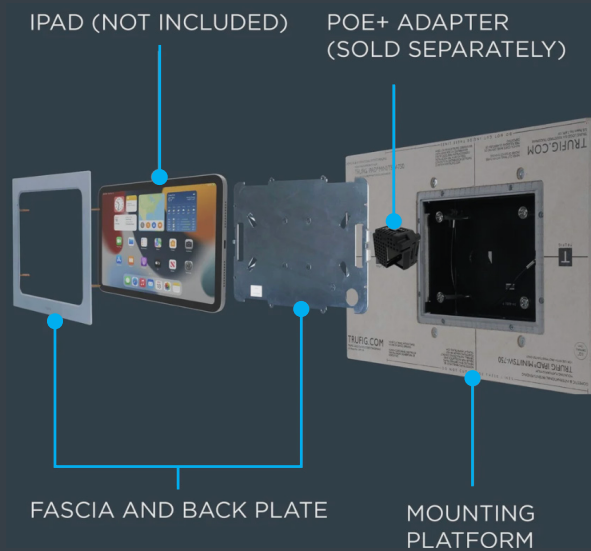

TRUFIG MOUNTING SYSTEM

TRUFIG solutions for Touch Panel are designed to precision-fit specific automation hardware models for design-centric control solution that blends into the architecture.
