**IMPORTANT ORDERING & INSTALLATION INFORMATION**

- Factory-installed tile flange on 1, 2 or 3 sides to simplify installation. Must specify tile flange location(s) and left- or right-hand drain on order.
- 3.5" drain opening pre-drilled.
- Drain finish options on this sheet are upcharge prices only. Contact MTI for ordering details for drain kits sold separately. Dimensions provided represent the length and width of the bottom of the base without tile flange. See Installation Instructions.
- Add proper wet-bedding compound to fully support bottom of shower base. Optional factory installed Pre-Levelled Foam Base negates the need to wet bed when installing on a flat, level subfloor. See installation instructions.
- All bases are in accordance with CSA B45.5/IAPMO Z124 standard and compliant with ASTM C 1028-07 coefficient of friction.

Factory-installed tile flange is 1/16" thick. Account for this thickness when planning final opening size.

• Options and accessories may be packaged inside the box. Always check packaging before discarding.  
 • All product measurements are ±1/2".  
 • Specifications and configurations are subject to change without notice.  
 • Measurements herein supersede all others published prior to publication date below.

See the Installation & Operation Manual for more details.
