VERSATILITY®

VERSATILITY®
Healthcare Sheeting by Standard Textile

STANDARD TEXTILE est. 1940

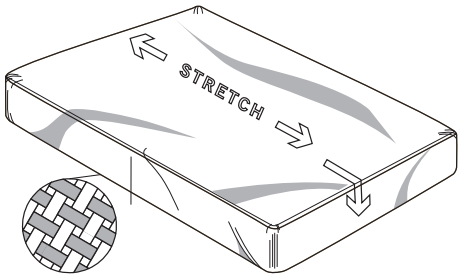
A breakthrough solution.

STRETCH AND SAVE.

Versatility® combines the smooth surface, comfort, and cost-effective advantages of traditional woven sheets with the durable stretch-and-recovery characteristics, extensibility, and adaptable fit of knitted sheets. This innovative synthetic/cotton blend is the first and only viable woven alternative to knitted fitted sheets—and it's available exclusively from Standard Textile.

NO LATEX. NO ELASTIC. NO COMPROMISE.

Versatility® fabric is woven so the stretch characteristic is present in the length of the sheet where it is most needed. It contains no elastic or latex of any kind, so it holds up extremely well to industrial processing. Our proprietary Centium Core Technology® further enhances strength and durability. The result is a service life previously unattainable for either woven or knit contour sheets.



NEW STRETCH-AND-RECOVERY WOVEN FABRIC

No Elastic,
Spandex, or Latex
