Succulent

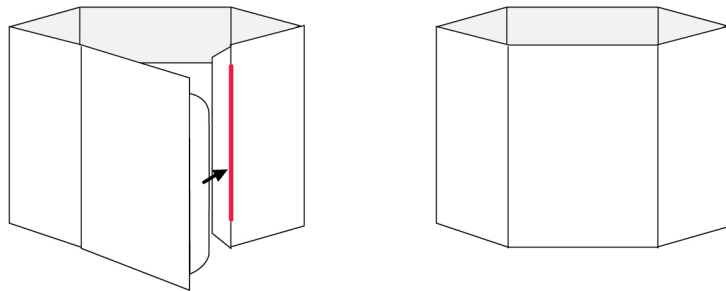

- Quick & Easy
- Suitable for all skill levels
- Makes 1 bouquet

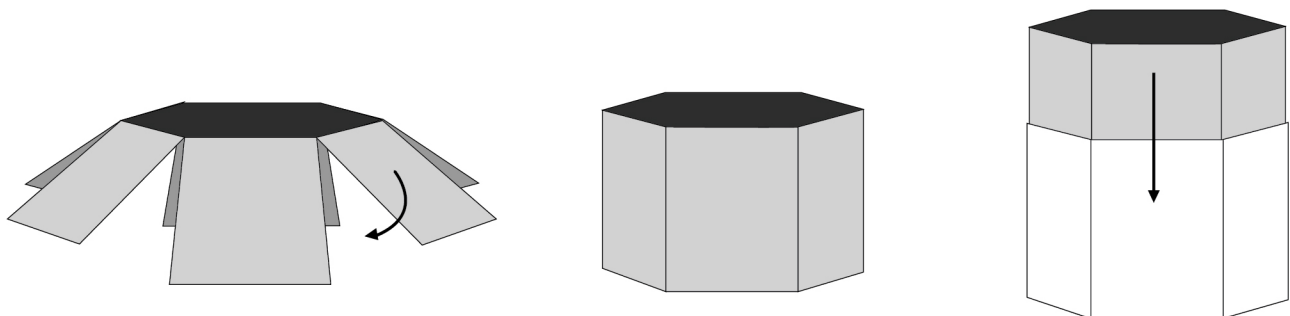

1. Open the envelopes and remove the contents.
2. Using the box for inspiration, color both sides of the floral pieces. Add shading and details for more interest. Coloring the pot is optional. Allow marker to fully dry to prevent smudging while assembling.

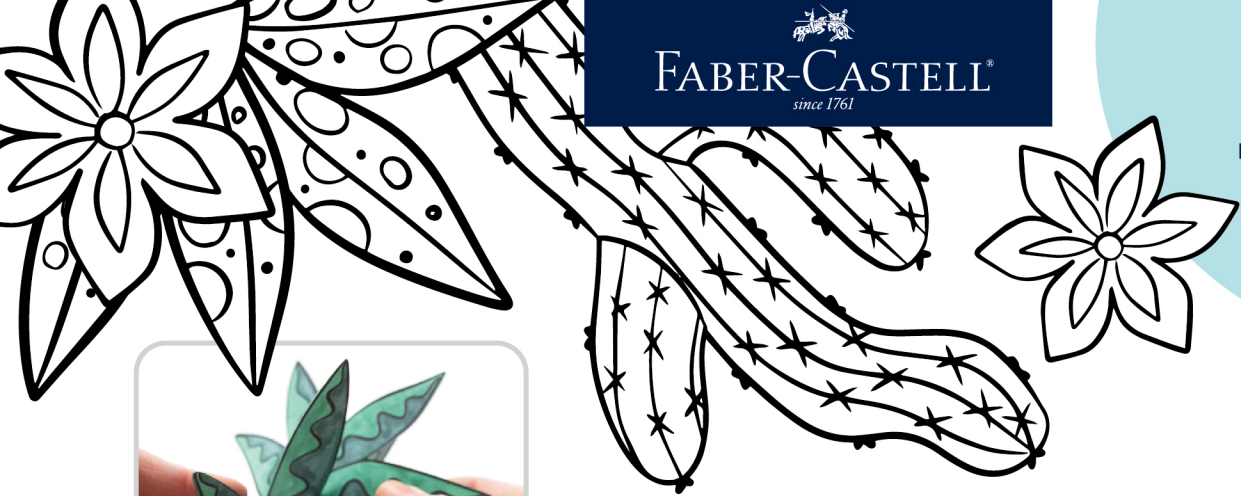

3. Fold on the indicated lines and secure the end tab into the slot. **(See diagram below)**
* **Printed side should face out.**

4. Fold the arms of the starburst center pot piece down. The black hexagon should face up. Slide this center piece inside the pot base created in step 3. **(See diagram below)**

5.

5. Slide the coordinating pieces together to create the shape of the succulent. The short succulent that resembles a flower needs to be layered onto the stem piece and the top added.

6. Once you have your pieces together, add them to the 4 slits in the base.

7. To add dimension, bend and curl the pieces.

8. Your Pop Up Bouquet is complete! Display it as art, or sign the tag and gift it to someone special.
