

PAINTED WOOD EARRINGS

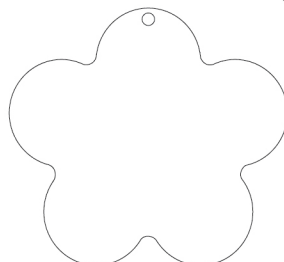

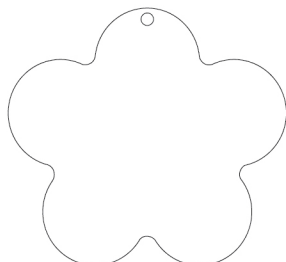

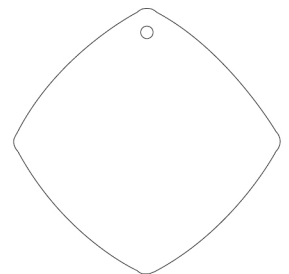

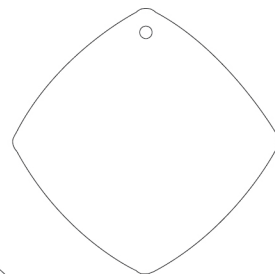

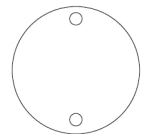

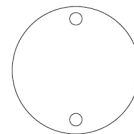

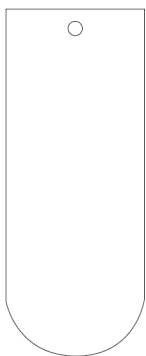

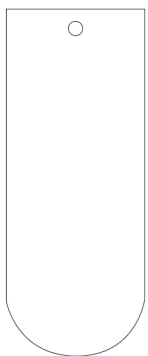

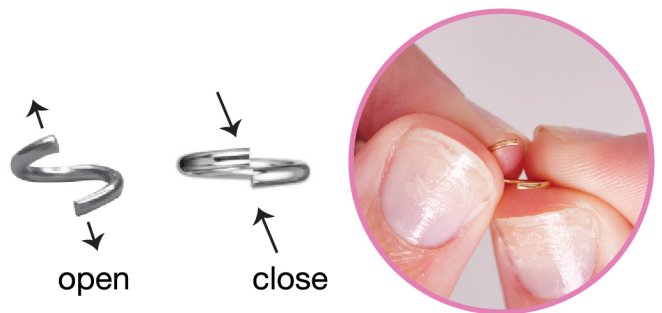

instructions

1. Empty out components.
2. Open box and lay it flat to protect your work surface while painting or use a paper towel.
3. Paint your own designs or use the samples on the box for inspiration. Use the templates below to help sketch out your designs. Apply paint as needed to get the desired opaqueness.

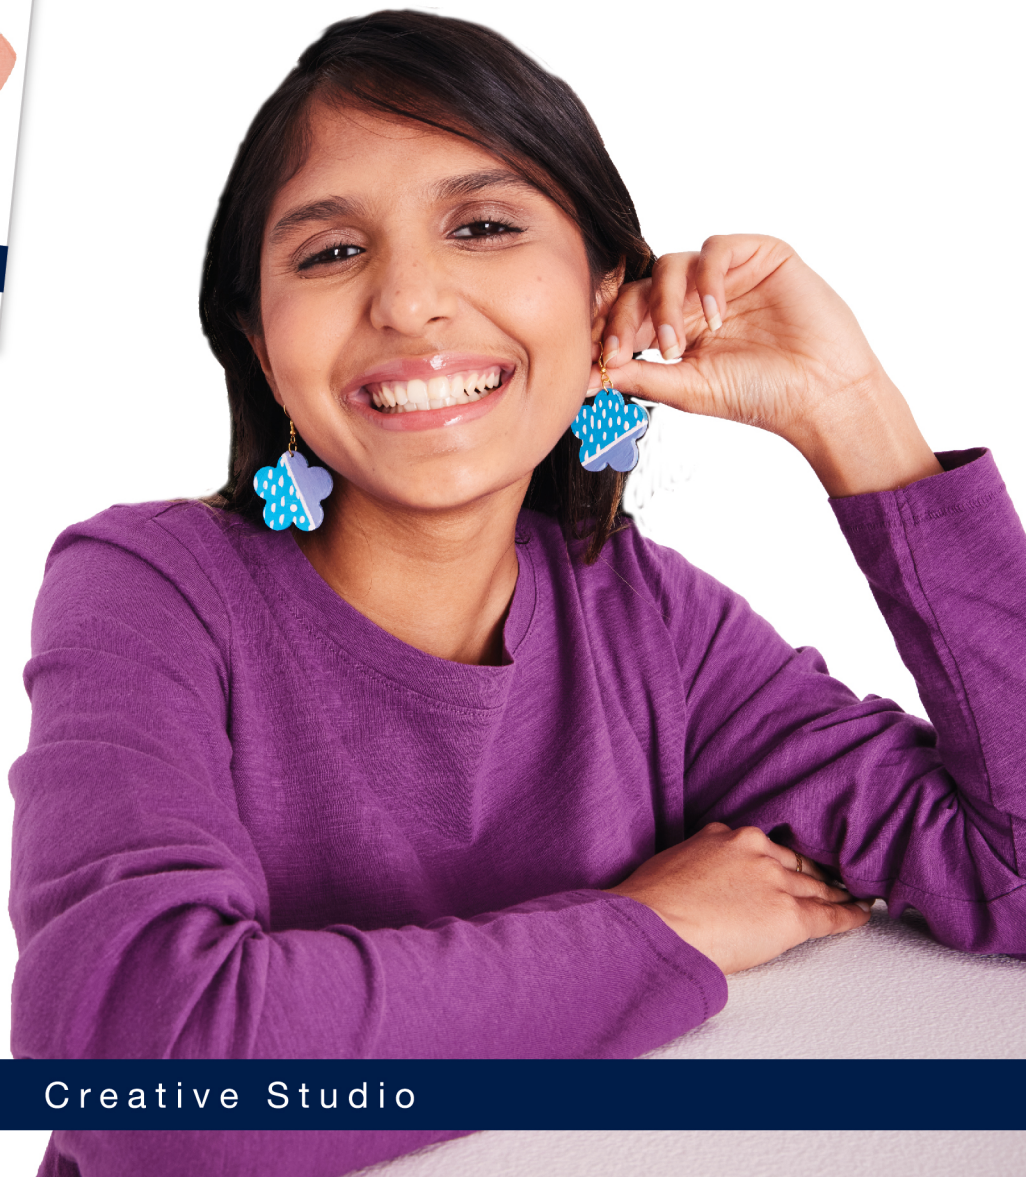

Allow the paint to dry between coats.

4. When completely dry, add your jewelry posts or hooks with a jump ring. Twist open the jump rings, side to side, as shown. If you need help, use a pair of pliers. Add the earring wire and close the jump ring tightly.
5. Enjoy your ready-to-wear earrings or gift them on the included card. Use the clear backers to hold them in place.

***Care: For best results avoid getting wet**
