

Oil Emulsion Dressings

Impregnated Gauze

ITEM 3067	3" × 3"	50 / bx	4 bxs /cs
ITEM 3068	3" × 8"	24 / bx	6 bxs /cs
ITEM 3070	5" × 9"	12 / bx	6 bxs /cs

A non-adherent knitted gauze impregnated with a petrolatum and sunflower oil in an emulsion blend. These conformable, non-occlusive dressings allow exudate to flow away from the wound into a secondary dressing, minimizing skin maceration.

- Knitted gauze dressings, evenly impregnated with an emulsion blend of petrolatum and sunflower oil
- Allow exudate to flow away from the wound, minimizing the risk of skin maceration
- Sterile, non-occlusive primary dressing used for low exuding wounds at stages 2, 3, or 4
