TACTICAL HAND PROTECTION

Make an M-Pact® in the field. When you need the control of bare hands without sacrificing protection, reach for the M-Pact fingerless. Featuring EN 388-rated Thermoplastic Rubber (TPR) knuckle protection, these gloves shield against blunt forces without sacrificing flexibility or control. The AirHammer™ palm padding wraps around the side and heel of the hand, encasing 2mm D30® to dissipate high-impact energy and reduce fatigue. Abrasion-resistant Ripstop fabric protects the back of the hand while repelling water and resisting snags. With a touchscreen-capable synthetic leather palm, reinforced grip zones, and an extended hook-and-loop wrist closure, the M-Pact® is built to perform in the field.

FEATURES

- 1 New knuckle and finger Thermoplastic Rubber (TPR) design for improves flexibility and dexterity without compromising protection.
- 2 Fingerless construction enhances airflow and provides unrestricted tactile feel for precision tasks and weapon handling.
- 3 Welded TPR knuckle design integrates a Lock Ring™ pattern around the thumb for improved durability in high-wear areas.
- 4 AirHammer™ palm padding wraps around the outside edge of the hand for increased protection and durability.
- 5 2mm D30® palm padding absorbs and dissipates impact and vibration to reduce fatigue.
- 6 Water repellent and abrasion resistant Ripstop material lines the back of the hand reducing potential snagging while working in confined spaces.
- 7 Reinforced palm and high-wear areas improve durability in demanding operational environments.
- 8 Flexible hook-and-loop wrist closure provides a secure and adjustable fit.
- 9 Fingerless design maintains natural dexterity and improved equipment handling.
- 10 Nylon carrier loops allow convenient storage and transport.
