NEW
SIZE

A non-adherent knitted gauze, impregnated with petroleum jelly to help maintain a moist wound environment for autolytic healing.

- Conformable, non-adherent dressing designed to minimize sticking to the wound
- Infused with petroleum to maintain a moist wound environment and promote autolytic healing
- Sterile gauze helps to minimize contamination for optimal hygiene
- Primary dressing for low-draining wounds such as donor sites, minor burns, and non-infected wounds
- Not made with natural rubber latex or DEHP
