Care and use

Before using the ovenware for the first time, it is essential to hand-wash it thoroughly. This ovenware is designed for domestic oven use only, with a maximum temperature of 220 °C or Gas Mark 7. To prevent sticking, it is advisable to lightly coat the inner surface with grease. For optimal longevity, please use silicone, wooden, or nylon utensils, and avoid metal utensils as they may cause damage. Take care not to overheat the ovenware, and never leave it unattended while in use. When it comes to cleaning, always allow the ovenware to cool down before handling it. Please note that it is not dishwasher safe; instead, hand-wash it with a mild detergent and a non-abrasive sponge, ensuring to rinse and dry it thoroughly. Do not store the ovenware while it is still wet. Additionally, always exercise caution by using heat-resistant oven gloves to move the ovenware, and avoid exposing hot ovenware to cold liquids. Should you notice any signs of damage, please dispose of the ovenware carefully to ensure safety.
