EMB II SERIES

**EMB10 | EMB12**

SOLD AS EACH

Built from solid aircraft grade aluminum and expertly finished to your color preference, the craftsmanship of this compact subwoofer exudes luxury and performance and includes a aluminum grille. “Energy Multiplying Bandpass” technology is utilized to obtain high output and low distortion from a very compact enclosure. The cabinet features a specially designed woofer and a pneumatically phase coupled passive radiator, both with aluminum cones and rubber surrounds. The subwoofer has been tuned to perform all the way down to an impressive 18Hz! Because it is a high power handling passive subwoofer, we recommend pairing it with our M1000 class D amplifier which provides 1000 watts of clean power and features a full DSP digital processor.

## KEY FEATURES

The frontfiring subwoofer combines contemporary design with premium craftsmanship, featuring solid aircraft-grade aluminum and a sleek aluminum grille. Utilizing "Energy Multiplying Bandpass" technology, it delivers high output and low distortion from its 12" woofer and passive radiator, reaching down to an impressive 18Hz. Pair it with our M1000 amplifier for optimal performance

## FEATURES AND BENEFITS

- Sturdy aluminum cabinet design
- Available as marine grade (Down Firing models only)
- IP65 Rating
- Can be ordered in low impedance or 70V
- Passive subwoofer (requires amplification)
- TAA Compliant
- Custom colors are available, contact JAMES for details
