

## ID BANDS

### ITEM 2187

Dynarex ID Bands are flexible wrist bands used for patient identification in medical facilities and treatment centers. Each package comes with 5 different colors and insertable data strips to detail patient risk factors.

- Water-resistant and durable vinyl design protects from rips, smudges, wrinkles, and scratches
- Soft material and round edges are comfortable and non-abrasive on skin
- Ideal for use in hospitals, surgical centers, nursing and retirement homes, and rehabilitation centers
- 50 clear ID bands with 160 color inserts in white, pink, yellow, green, and blue (32 inserts per color)
- 5 boxes per case
