The Better Cotton Initiative aims to create long-term change. The Better Cotton Standard System is a holistic approach to sustainable cotton production which covers all three pillars of sustainability: environmental, social, and economic. The Better Cotton Initiative exists to make global cotton production better by reducing stress on the environment and improving the livelihoods and welfare of farming communities.

OneSTEP® products provide both the laundry and housekeeping professional with One Solution To Enhance Productivity. EZ ID® size identification makes sorting a snap, while balanced hems and center lock labels allow for simplified bed make-up.
