

DYNACARE

denture adhesive

Dynarex Denture Adhesive offers a strong bond to firmly hold dentures in place while forming a seal to keep food particles out. The adhesive cream is easily applied, providing a comfortable, long lasting hold. Dynarex Denture Adhesive is ideal for use in facilities such as rehab centers, hospitals, and long-term care facilities.

- Designed to hold dentures comfortably in place with long-lasting hold
- Forms a protective seal to help keep food particles out
- Easy-dispense tube allows for quick application
- Fresh, minty flavor for pleasant taste and improved confidence
- Ideal for hospitals, long-term care, and at home
