With Alexa

Radar-powered precision. That's Pro.

Ring Pro-tier Doorbells help protect your property with 3D Motion Detection - allowing you to pinpoint movements for unmatched security coverage.

See more in less light.

With Low-Light Sight, now the illumination from a streetlight or landscaping is all Battery Doorbell Pro needs to keep you seeing in clear color in near-dark.

Powered by Ring Vision.

Ring's state-of-the-art hardware, powerful software, and backend processing work together to give you the ultimate image quality.

Frequently Asked Questions

What is the benefit of 3D Motion Detection?

Radar 3D Motion Detection provides more reliable motion alerts and reduces notifications that may be unnecessary or unhelpful. The radar sensor that powers 3D Motion Detection also has benefits such as: better detection of objects approaching head-on, better able to define detection distance, decreases false positives while still providing timely alerts.

What is Bird's Eye View?

Powered by radar and 3D Motion Detection, Bird's Eye View provides an aerial map view of motion events in front of the doorbell and clearly shows the path that visitors take when visiting the property giving more context by being able to see where a motion event begins.
