

## Quad Cane

DME Care Solutions Quad Canes are sturdy, one-handed mobility aids designed for individuals who need greater stability than a standard cane. Each cane features a contoured grip handle and a durable aluminum frame for enhanced support.

- Provides additional stability for users needing more support than a standard cane
- Constructed from high-quality anodized aluminum
- Four-legged steel base provides increased stability
- Contoured handle provides optimal comfort and grip for daily use
- Push-button height adjustment and locking knob allow easy customization from 28.5" to 37.5"
- Non-skid tips improve traction across various surfaces
- Comes in retail-friendly packaging
- Limited Lifetime Warranty
