

ENDOTRACHEAL TUBES

Cuffed

Dynarex Resp-O₂™ Endotracheal Tubes are high-quality plastic tubes designed to safely and effectively deliver higher concentrations of oxygen and medications directly into patients' lungs.

- High-quality, durable plastic tubing helps secure and maintain patients' airways
- Designed to deliver oxygen in higher concentrations directly into patients' lungs
- Can be used to safely administer medications directly into the lungs
- Features smoothly crafted Murphy eye holes to help protect vocal cords
- Available cuffed or uncuffed, and with or without intubation stylette
- Stylettes are engineered to help support and guide the tube through patients' airways
- Sterile, not made with natural rubber latex
