Voice Assistant

Enjoy hands-free home monitoring with select Alexa-enabled devices. Hear custom notifications and use two-way talk with audio-only Echo devices, and launch video with Echo Show, Fire TV and Fire Tablets.

Frequently Asked Questions

What is the difference between Floodlight Cam Wired Plus and Floodlight Cam Wired Pro?

Ring Floodlight Cam Wired Plus includes Live View, Two-Way Talk, Advanced Motion Detection, Customizable Motion Zones, Customizable Privacy Settings, and an easy to use app. Ring Floodlight Cam Wired Pro builds upon all these great features with a new design and advanced features including radar-powered 3D Motion Detection, Bird's Eye View, Audio+ for enhanced audio, a 110db siren, dual-band Wi-Fi and an array microphone that limits sound distortion.

What is the benefit of 3D Motion Detection?

3D Motion Detection provides more reliable motion alerts and reduces notifications that may be unnecessary or unhelpful. The radar sensor that powers 3D Motion Detection also has benefits such as: better detection of objects approaching head-on, better able to define detection distance, decreases false positives while still providing timely alerts.

What is Bird's Eye View?

Powered by radar and 3D Motion Detection, Bird's Eye View provides an aerial map view of motion events in front of the camera and clearly shows the path that visitors take when visiting the property giving more context by being able to see where a motion event begins.

Can I mount Floodlight Cam Wired Pro upside-down on a ceiling or eave?

Yes, if you have an existing junction box. Simply follow the instructions in the manual.

What is Ring Protect?

Ring Protect is a comprehensive optional service that activates video recording, saving and sharing for your Floodlight Cam Wired Pro, plus a few extra perks. To compare and learn more about Ring Protect visit <https://ring.com/protect-plans> to choose a plan that works for you.
