MARAZZI 
DARE TO BE BOLD™

CAVATINA™

PHOTO FEATURES CAVATINA™ IN ARIA

The dramatic sense of depth and movement realized in CAVATINA™ via Marazzi's 3d Imaging Technique captures the look of natural travertine on a flat, smooth surface that is both striking and easily maintained. Fissures and striation visuals create realistic depth without any actual surface indentations. These natural stone looks vary widely from piece to piece, within vastly-ranged colorways of white, beige, brown and gray.
