

Big Gem Diamond Painting DELUXE SET

6+

CREATE 24 STICKERS, 2 KEYCHAINS & 2 SUNCATCHERS

PREP YOUR GEMS

Find the sealed ends of each gem bag. Carefully peel it open, pour some into your gem tray then reseal the bag.

Helpful Tip: Upside down gems can be flipped over by shaking the tray side to side, or using your fingers.

STICKERS + KEYCHAINS

The little sticky dots will guide gem placement. Choose colors that match the designs or pick different gem colors. It's up to you.

Helpful Tips:

- To work on just one sticker at a time, separate them with scissors before you remove and discard the clear protective cover.
- If you don't have scissors handy, peel back the protective cover a little at a time as you work.

1. Peel the clear film off the wax then press & twist the tip of the stylus into the wax to fill it.

2. Peel off the clear protective cover to reveal the adhesive.

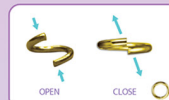

3. Pick up gems with the tip of the wax filled stylus. (When it stops working, refill it with more wax.)

4. Place the gems on the adhesive dots. When finished, press down on the gems so they stay in place.

ASSEMBLE KEYCHAINS

- Add a jump ring to a lobster claw.
- Attach a rainbow chain to the jump ring on the lobster claw and the Big Gem Keychain.

See image on how to open and close jump ring. Repeat for other keychain.

When you are finished, clip your keychain to your favorite bag or backpack!

SUNCATCHER TIME

Peel a little of the protective cover at a time as you work. If you need to stop at any point, you can cover your design then come back to it later.

If you'd like help with gem placement, use the guide printed on back of instructions. Place your suncatcher over top and follow the dots.

There are two ways to display. Insert a stand into the slit at the bottom of the suncatchers. Or hang them on a window or mirror with the suction cup hooks.

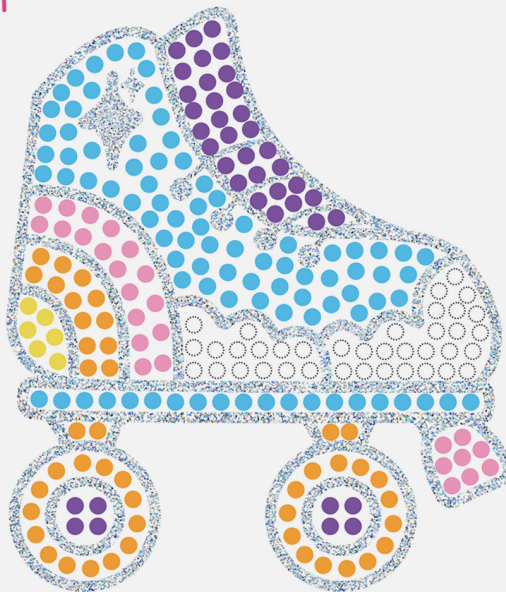

Remove protective film from stands.

For beset results, wet the suction cup before using.
