BEFORE YOU BEGIN

- Please check the product for damage and missing parts immediately upon delivery. Damage reported later will not be covered by our warranty. Please handle the product with care. Avoid any impact to the surface.
- **This item is not designed for use as a grab bar. Do not mount in locations where product is likely to be used as a grab bar.**
- **Use caution when drilling into walls to avoid drilling into electrical and plumbing lines hidden within wall.**
- **Additional wall support:**
  Installation of the accessories may need additional wood framing in a place of installation. You may need to remove a portion of the sheetrock with tiles to install the wooden block. If you have an access from the back it will be easier to cut a piece of sheetrock to install this additional wood framing.

TOOLS AND MATERIAL

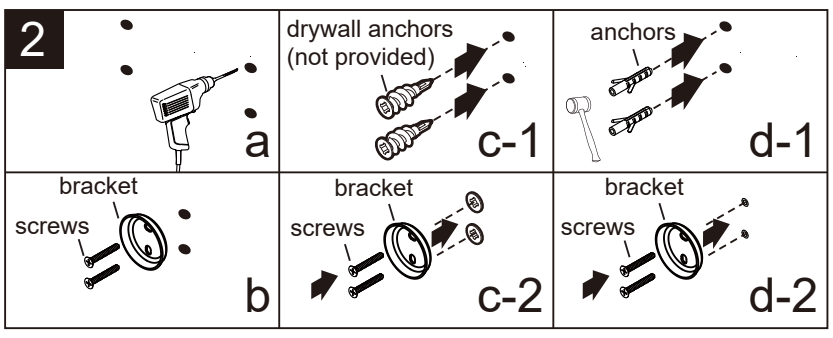

Screw driver | Drill | Drill Bit | Pencil | Level | Rubber Mallet | Masking Tape

INSTALLATION

⚠ WARNING For ease of installation, READ through ALL instructions before you begin.

a. Identify the two or four hole locations on template for your accessories and ensure it is completely level.
b. Place tape on all four corners of the template.
c. Mark hole locations and check to make sure marks are on the wall. Remove the template from the wall.

Install the bracket in wood stud:

a. Drill 7/64" pilot holes through tile in each mounting location if drilling into wooden stud. Then drill 11/64" holes through the tile only at the same locations to allow the wood screws to pass through.
b. Remove the brackets from the accessories. Align them with pilot holes and secure with screws.

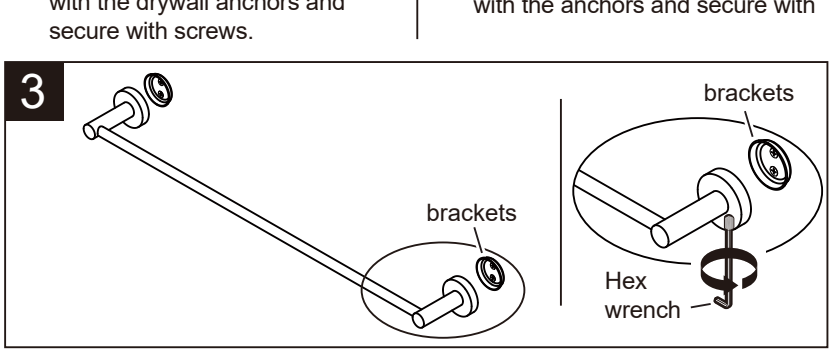

NOTICE: The pilot hole size is for soften wood. Try to drill bigger holes for hard wood.

Install the bracket in a dry wall:

a. Drill 1/8" pilot holes through the wall.
c-1. Drive the drywall anchors (not provided) into the wall using a Phillips screwdriver until flush with the wall.
c-2. Remove the brackets from the accessories. Align the brackets with the drywall anchors and secure with screws.

Install the bracket on a solid wall:

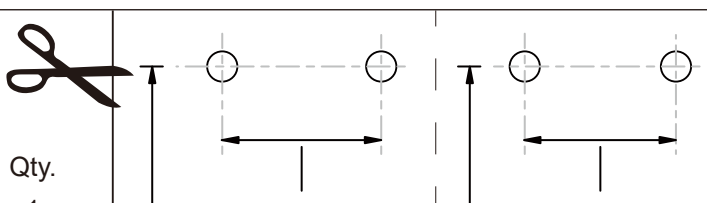

a. Drill 1/4" pilot holes into the wall.
d-1. Tap the anchors into the wall using a hammer until flush with the wall.
d-2. Remove the brackets from the accessories. Align the brackets with the anchors and secure with

Attach the towel bar to the brackets. Tighten the set screws with the Hex wrench to secure it.

CARE AND MAINTENANCE

Care should be given to the cleaning of this product. Although its finish is extremely durable, it can be damaged by harsh abrasives or polish. To clean, simply wipe gently with a damp cloth and blot dry with a soft towel.
