Dryzone Airer

Please retain instructions for future reference.

CARE AND USE

To be eligible for the extended guarantee, your product must be registered within 30 days of purchase.

Please retain instructions for future reference.

Assembling the airer.

Remove all of the packaging from the airer.

Stand the airer on its end.

Carefully raise the drying area away from the legs.

Secure the airer into the upright position by securing the edges of the drying area into the clips at the top of the legs.

Open the folded airer wings to increase the drying area to full size.

For extra drying space, slide the hooks on the corner pieces outwards to hang extra items.

Fold in the airer wings after use.

To collapse the airer for storage, remove the edges of the drying area from the clips.

Holding the airer frame, slowly lower the drying area until it is in the closed position.

Caution Never drag the airer, as this will place unnecessary strain on the legs.

Distribute weight evenly to ensure the airer is stable.

Maximum load is 15 kg.

Do not overload the airer.

Never move once laden.

Take care not to trap hands when opening and closing the airer.

Suitable for indoor use only.

Made in China
