

17014AR-LED-ID

6" IC Airtight Remodel Led Housing

Product Description

Ideal® quick-connect base allows for quick, snap-in connection of NICOR® 6" D-series LED downlights. Suitable for residential and commercial applications. Suitable for direct contact with insulation. IC rated and airtight.

Housing

- Washington State Energy Code approved to meet restricted airflow requirements
- Airtight housing limits exchange of air between ceiling plenum and heated/cooled areas
- Molex to Ideal® adaptor whip available (Not required for DLR56)
- 5 3/4" height allows use in 2" x 6" joist construction

Junction Box

- Listed for through-branch circuit wiring and includes several 3/4" knockouts
- Supplied with three push-in wire connectors
- Input Voltage: 120V
