

# DOUBLE-SIDED PAINTPRO®

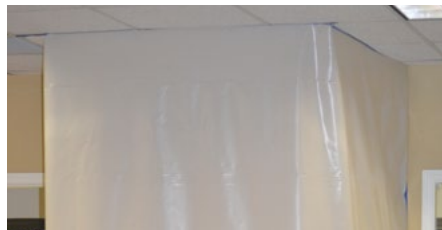

## AN INNOVATION IN PAINTPRO® TAPE FOR PAINTING

Double-sided PaintPro® tape is specifically designed to be a one-step tape for your painting & poly draping applications. Through the differential adhesive system, the open side offers a 14-day clean removal from your walls and doors, while the liner side offers a high tack acrylic adhesive designed to adhere to plastic film. Once properly applied, the tape will not damage the paint while holding poly draping for floor/wall protection. A lot can get done with just one strip of this tape!

### FEATURES & BENEFITS

- Hand tearable with an easy release liner
- Withstands negative pressure
- Strong and conformable
- Designed for use with 4 mil and 6 mil poly
- 2-in-1 tape equals labor savings!
