

THIN SHADE™ ECOCELL™

The Lippert Thin Shade EcoCell RV window shade and complete RV window shade kit provide built-in privacy, light control, and insulation for prepped Lippert entry doors. Their innovative cellular design helps regulate interior temperatures, creating a more comfortable and energy-efficient environment year-round.

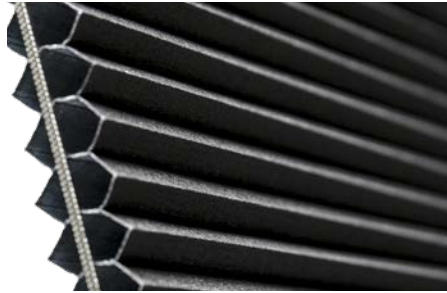

BUILT-IN SHADE. ENHANCED COMFORT.

Integrated shade design

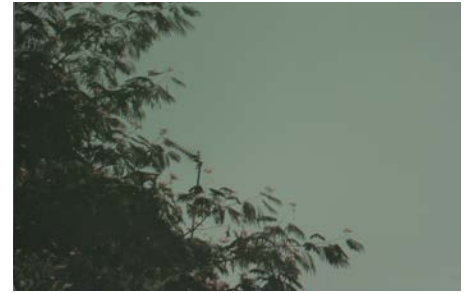

With a simple push or pull, you can easily adjust the shade for instant privacy without the hassle of cords, handles, or external covers.

Energy-efficient material

The EcoCell shade helps regulate indoor temperatures, keeping your RV cooler in the summer and warmer in the winter while also reducing energy consumption.

Tinted glass

Included in the kit is a tinted glass window that helps minimize glare from the sun while enhancing privacy inside your RV or camper.

The complete window kit includes everything you need to quickly and easily upgrade your RV entry door. With a tinted glass window, black exterior and interior window frame, and hardware, installation is straightforward.

Complete window shade kit features

- Uniquely designed complete window shade embedded in frame
- Compatible with Lippert RV entry doors only
- Black shade adds privacy to interior RV spaces
- Easily adjustable, horizontal blind
- Easy DIY installation
- Made in the USA
- Window frame dimensions: 24.72" x 15.72"
- Window dimensions: 23.72" x 14.72"

RV Window shade features

- Made for Lippert RV entry doors already prepped with the Thin Shade window frame (look for the "Thin Shade Ready" decal on your window)
- Adds privacy to interior RV spaces
- Smooth and easy extend and retract operation; no cords to get tangled or knotted
- Integrates into the RV door window frame; other shades and reflectors need to be taken off and put back on when not in use
- Made in the USA
- Snap on shade measures 11-7/8" x 21-1/2"

Installation is quick and simple on any Thin Shade-ready Lippert entry door. Just remove the window frame, snap the shade into place, and reattach the frame—no special tools or modifications required.
