

SONANCE

POWERPIPE X SERIES

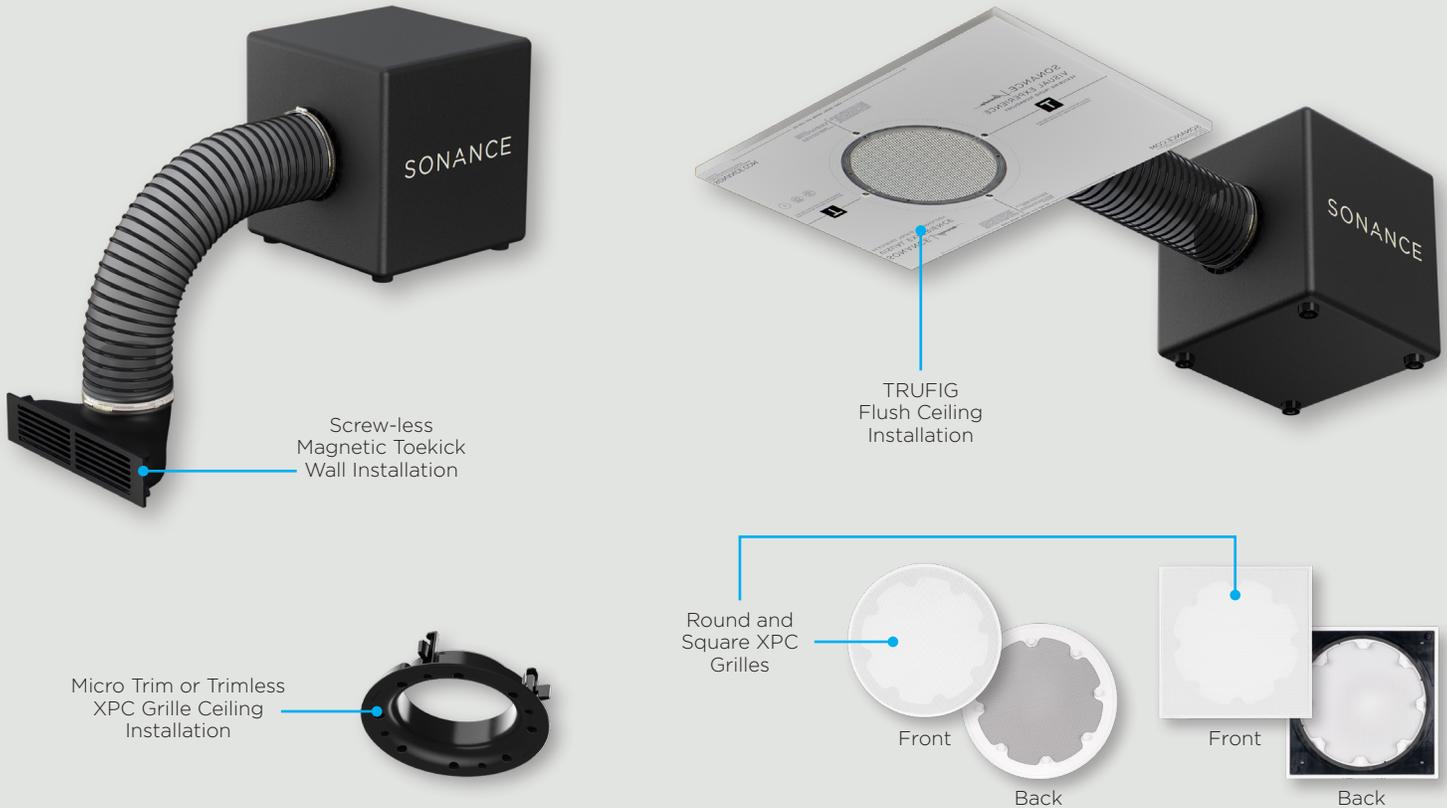

PPX8 | PPX10 | PPX12 | PPX15

SOLD AS EACH

The PowerPipe X Series represents a comprehensive 20-year update to the iconic James PowerPipe Series. Featuring true subwoofer performance, enhanced installation flexibility, and expanded aesthetic integration options, the PPX Series delivers exceptional low-frequency performance while maintaining the “Designed to Disappear” philosophy that makes PowerPipe solutions ideal for any architectural environment.

KEY FEATURES

PowerPipe X Series offers advanced bass performance in a ported subwoofer design available in four levels (PPX8/PPX8-M, PPX10/PPX10-M, PPX12/PPX12-M, and PPX15/PPX15-M). PPX models can be ordered as Sonance-branded MDF or James by Sonance marine grade aluminum models for a total of eight variations. PPX is designed to disappear into ceiling, wall, and cabinet spaces while porting into the listening room for minimal visual impact. PPX subwoofers can be configured to suit any application with accessories for toekick, micro trim, trimless, and flush-mounted grille trims.

FEATURES AND BENEFITS

Four Sizes: PPX8, PPX10, PPX12, and PPX15 models for scalable bass solutions

Ported Bandpass Design: Provides deep, rich bass in a compact form factor

Applications: Behind wall cavities, ceilings, or inside cabinets

Variety of Finishes: Screw-less magnetic Toekick, XPC micro trim or trim-less Grille, or TRUFIG flush mounted XPC grille blend seamlessly into any design
