CT Series 15 SEER Heat Pump

Continental Central Heat Pumps offer both heating and cooling capacities to keep your home comfortable throughout the seasons. With its stylish design and consistent temperature control, you'll enjoy your Continental CT Series heat pump all year round.

Competitive Advantages

- WHISPER QUIET™ Operation
- Made with environmentally conscious, chlorine-free refrigerant R-410A which reduces power consumption and increases the durability of your compressor

Features and Benefits

- Up to 15 SEER, 8.5 HSPF
- 2 to 4 tons of heating & cooling capacity
- Baked-on powder paint for rust resistance
- Entire unit tested in factory before shipment
- Industry leading scroll compressor
- Low vibration design for quiet operation
- Tube and Fin Coil

Whisper Quiet™

Continental CT Series Heat Pumps are made with modern fan blade technology. The unique upswept blades increase efficiency, slicing through the air easily which decreases sound levels and ensures very little vibration. The swept fan blades are made with a plated steel hub and aluminum blades to ensure longevity.

Continental 1.5 and 2 ton air conditioners and heat pumps use a 4 blade fan to meet the cooling needs of the unit - 2.5 through 5 ton air conditioners use a larger 2 blade fan that provides the increased air distribution required for larger units.
