POST HYDRANT - Non-Freeze, Exposed

Post hydrant features a unique housing designed for aesthetic appeal. Siphon resistant drain port prevents subsurface water contamination from entering hydrant. Upward movement of the washer guide when the hydrant is turned on, positions O-Rings to seal off drain port. When hydrant is turned off, the washer guide moves down, clearing drain port to permit complete drainage of water from the hydrant. Drain port is tapped 1/4 [6] IP for drain piping connection by others.
