Black Diamond Self Contained Ice Maker, 210 lbs, Full Cube, in Stainless Steel/Black

BDSC210

The Black Diamond Self Contained Commercial Ice Maker provides reliable, high-volume ice production, making it an ideal choice for busy kitchens, restaurants, and hospitality venues. Constructed from durable stainless steel and plastic, this unit produces up to 210 lbs. of ice daily and stores up to 80 lbs., ensuring you always have a plentiful supply. The compressor-cooled system uses eco-friendly R290 refrigerant for efficient operation, while the digital controls simplify performance monitoring. Warranty coverage supports long-term investment in the appliance.

FEATURES AND CONSTRUCTION

- Energy-efficient design with Energy Star Certification
- Provides up to 210 lbs of full cube ice production per day for high-volume foodservice needs
- Integrated bin with interior lighting holds up to 80 lbs of ice for high-volume applications
- Engineered with high-grade stainless steel (304) and durable plastic for robust, long-lasting performance
- Features a high-performance air-cooled compressor system for reliable ice production
- Single front door swings up and slides back for easy one-handed access for refilling and scooping ice
- Designed to perform optimally in standard indoor commercial environments
- R290 refrigerant supports reduced environmental impact and compliance with regulations
- Includes an ice scoop, 4 legs, 2 PTFE gaskets, a plastic joint coupling, and an inlet hose with connectors

INSTALLATION

- A clearance of 2" from the wall is recommended to promote adequate cooling air circulation
- A gravity drain line is required to install this ice machine
- If a water filter option is not used, the performance and life expectancy of the machine will be greatly reduced. Suggested water filters are the TLC-107096 (single head), TLC-107097 (double head), and the TLC-3200S (replacement cartridge).
