IMPACT LEATHER WORK GLOVES

Durahide™ M-Pact® leather work gloves stand tall against rough cut wood, concrete and abrasive metals. Durahide™ performance leather delivers extreme abrasion resistance and structural integrity from construction to home improvement applications.

The Durahide M-Pact features Thermoplastic Rubber (TPR) knuckle protection that absorbs blunt force impact and meets EN 388 impact standard. For comfort, we added D30® palm padding to dissipate energy and reduce fatigue as the day goes on.

FEATURES

- 1 Next-generation M-Pact® chassis features redesigned Thermoplastic Rubber (TPR) knuckle and finger protection for improved flexibility, dexterity, and ANSI 138 Level 1 impact protection.
- 2 Welded TPR knuckle design integrates a Lock Ring™ pattern around the thumb for increased durability in high-wear areas without vulnerable stitching.
- 3 360° HPPE liner with synthetic leather palm delivers EN 388: 2016 Level D and ANSI A4 cut resistance for critical hand protection in demanding environments.
- 4 D30® palm padding absorbs and dissipates impact and vibration to reduce hand fatigue during prolonged use.
- 5 AirHammer™ palm padding wraps around the outside edge of the hand to create a functional and protective surface.
- 6 Form-fitting TrekDry® backhand material keeps hands cool and comfortable during extended wear.
- 7 Armortex® palm reinforcement enhances durability in high-abrasion areas.
- 8 Reinforced thumb and index finger improve durability and wear resistance during repetitive tasks.
- 9 Touchscreen-capable synthetic leather palm keeps operators connected in the field.
- 10 Extended hook-and-loop wrist closure provides a secure and adjustable fit.
- 11 Nylon carrier loops allow convenient storage and transport.
- 12 TAA compliant and built for military, law enforcement, maintenance, and material handling applications
