

# Extraction Rinse

Extraction Rinse removes hard water deposits and neutralizes alkaline residue on synthetic and wool carpets.

## Features & Benefits

- Effective removal of hard water deposits and neutralizes residue from previous cleanings
- Makes salt residue more soluble, meaning less passes to remove winter salt, leaving no tacky residue
- Versatile formula strong enough for advanced generation carpet fibers at low dilution, yet delicate enough for wool carpets at high dilution
- Slightly acidic product keeps extractor jets from clogging
- WoolSafe approved

## Applications

- For use as a powerful rinse aid
- Safe to use on all colorfast carpets

# Extraction Rinse

## Use instructions

- Apply Heavy Duty Prespray according to use directions, depending on soil level.
- For synthetic carpets, dilute 1 oz. Extraction Rinse with 1 gal. luke warm water (30 mL per 3.8 L) in extractor. Dilute 1 oz. with 5 gal. (30 mL per 19 L) water for wool carpets (use cool water).
- Thoroughly extract carpet.
- Groom carpet with clean carpet rake or stiff synthetic broom and allow to air dry.

**Note:** If being used for the first time, test for colorfastness in an inconspicuous area before use.

Technical data	Extraction Rinse
Certifications	WoolSafe
Color/Form	Clear, Liquid

Scent	Fruity fresh
Shelf Life	2 Years

Product	Pack size	Dilution	Product code
Extraction Rinse	4 x 1 gal. / 3.78 L Containers	1:258 (Synthetics) 1:640 (Wool)	101109760 

## Safe handling

Please make sure your employees read and understand the product label and Safety Data Sheet before using this product. The label contains directions for use; and both the label and SDS contain hazard warnings, precautionary statements and first aid procedures. SDS are available online at [www.diversey.com](http://www.diversey.com) or by calling 888.352.2249. Improper use or dilution may result in damage to surfaces and may result in health and physical hazards that match those of the concentrate.
