

CRC® Dry Graphite Lube

Product Description

Best for dry, high-temp, non-petroleum lubrication on metal and rubber. Not every environment allows grease or oil, but that doesn't mean you can compromise on protection. You're working in heat, grit, and pressure, where failure isn't just inconvenient, it's costly. CRC® Dry Graphite Lube forms a strong, dry, non-petroleum layer that resists water, repels dust, and handles up to 25,000 psi and 850°F intermittent. Because clean doesn't have to mean gentle.

Advantages vs multi-purpose lubricants: This is a non-tacky solid film that doesn't attract dust, grit or fibers, and won't varnish like multi-purpose lubricants. It also handles much higher pressure, and works in extremely high temperatures. Once cured, it has minimal migration.

Applications

Gaskets, transfer belts, conveyor belts, motors, plant machinery and handling equipment, rubber moldings, high temperature, low load, or high rpm slides, rollers, wheels, gears, chains & hoists.

Identification

Item Number / Case Number	1003362 / 1003361
Legacy Number	03094
Unit Package Description	16 Ounce Aerosol
Net Fill	10 wt oz
UPC Code	078254030944
Unit Dimensions	7.75H x 2.63W x 2.63D in
Units Per Case	12

Properties

Appearance	Black Liquid
Base Type	
Boiling Point (F/C)	95°F / 35°C
Dielectric Strength	
DOT Proper Shipping Name	Aerosols, Flammable, Limited Quantity
Evaporation Rate	Moderate
Flash Point (F/C)	-4°F / -20°C
Flammability LEL % / UEL %	1.5 / 12
Flammability Class - CPSC	Extremely Flammable
NSF Category Code	N/A
Odor	Solvent
Plastic Safe	No
Propellant	Hydrocarbon
Restricted From Sale In:	
Solubility	No data available
Spec Gravity Concentrate	0.81
Vapor Density	Not available
VOC % (Consumer Product def)	48.6
VOC Category	Dry Film Lubricant
Working Temp (F/C)	400°F (Continuous) / 850°F (Intermittent) / 204°C (Continuous) / 454°C (Intermittent)

Sizes

10 wt oz	03094
----------	-------
