Behind the Brand

Building Better Together

With over a century of powering and protecting the world around us, Atkore has a deep understanding of the high demands of the various industries and applications we serve. Our portfolio of industry-leading brands, coupled with our breadth of products and solutions, brings you exceptional value.

Atkore Advantages

- ▲ Customer-focused: Sales & technical guidance
- ▲ Accredited CPD training programmes
- ▲ Toolbox talks by our expert team
- ▲ Engineer site visits & measures
- ▲ Custom & pre-fabricated solutions
- ▲ Over a century of innovation & expertise

Data Centre Solutions

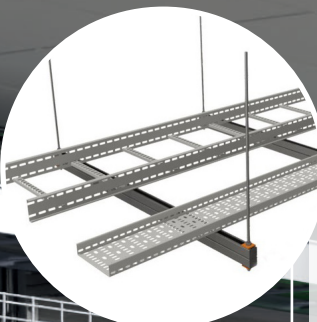

Product Highlights

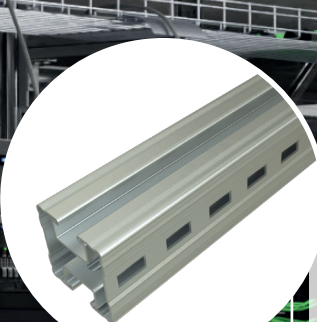

Modular & Prefabrication

Our fully integrated prefabricated modular units are available bespoke in 2D or 3D, populated or unpopulated, and delivered ready to install or as a kit.

Metal Framing Systems

Supplied to exact requirements in single or multi-tier configurations, delivered ready to install with verified load performance.

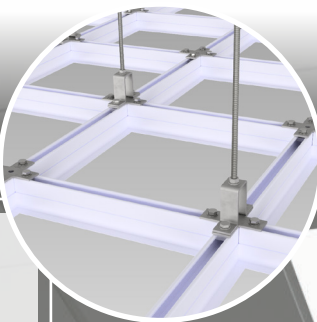

Heavy Duty Framing

All the benefits of Atkore Unistrut with specialist coatings for harsh environments and backward compatibility for install ease.

Talon Cable Cleats

Fast install cleats tested to protect low, medium, and high voltage cables from short-circuit damage while providing superior strain relief in vertical installations.

Structural Ceiling Grid

Adaptable multi-service, lighting, and panel support, with channel attachment flexibility and P1001/P5501 configurations.

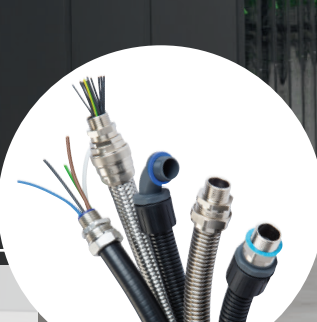

Aisle Containment

Custom-engineered for any rack layout with off-site manufacture, FEA-backed design, and efficient, safety-focused installation.

Underfloor Services

Our Flytec underfloor services include raised brackets and containment with bespoke design available.

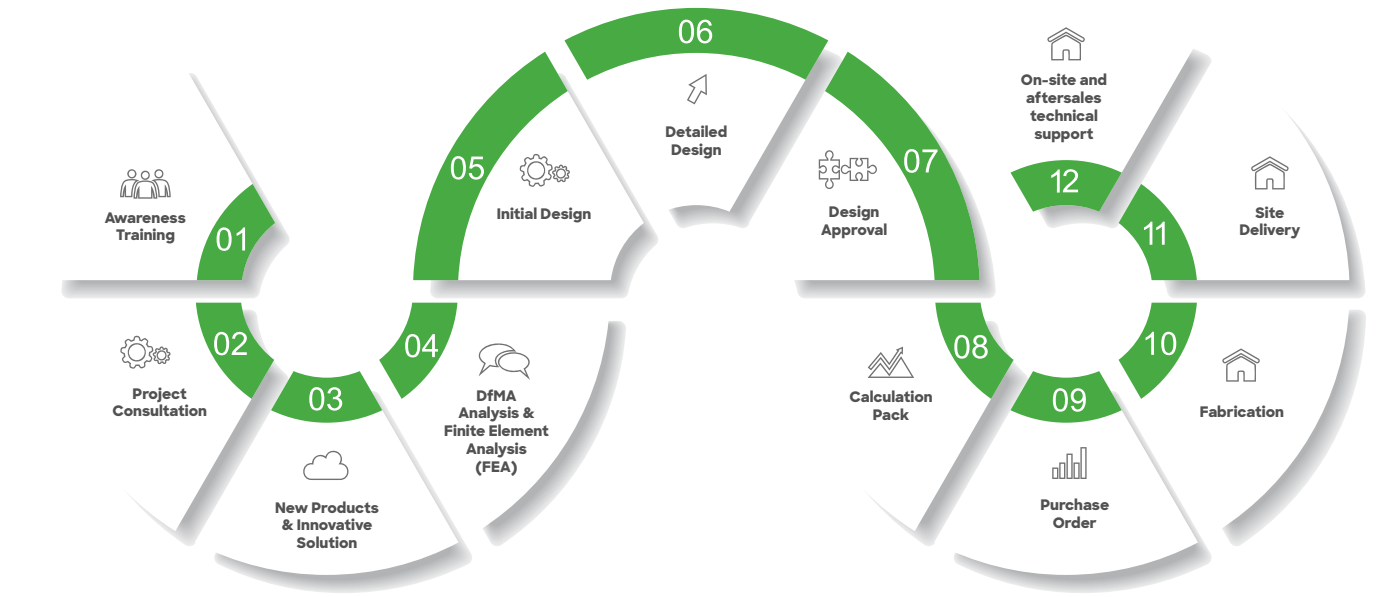

Cable Protection

Our Flexicon cable protection solutions offer a wide range of metallic and non-metallic conduit systems, protecting cables from end-to-end.

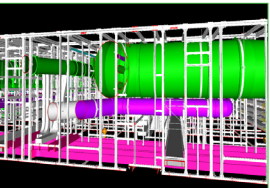

Engineered Solutions

We provide end-to-end support to ensure the right solution is delivered first time, from initial consultation and design approval through to scheduled manufacture, quality control, and delivery of completed modules ready for installation.

Traceable Cable Management

With Atkore, you're assured the cable management solutions we supply are BS-compliant, fully traceable, and are supported by innovative engineering tools such as PreFab 3D - automating design with verified models, drawings, and bills of materials.

The result? Quality-checked, BS-marked products supplied with a Quality Batch Number for full traceability from mill to site. For further information or support, contact our nationwide team today.
