Frequently Asked Questions

What's the difference between the Ring Video Doorbell (2020 Release) and previous generation?

The Ring Video Doorbell (2020 Release) has 1080p HD video (vs 720p HD on the original Ring Video Doorbell), customizable motion zones, and a revamped mounting setup that simplifies removal for battery charging. The new Video Doorbell also has improved audio quality and crisper night vision.

How do I recharge the battery for the Ring Video Doorbell (2020 Release)?

The Ring Video Doorbell (2020 Release) is charged using the included micro-USB cable. You will need to remove the security screws on the base of the doorbell and lift it up and away from its mounting bracket. Using the micro-USB cable, plug the doorbell into any USB source. Once fully charged, reattach the doorbell to the mounting bracket using the included security screws.

What is Ring Protect?

Ring Protect is a comprehensive optional subscription service that lets you review, share and save every video and photo captured by your Ring Video Doorbell, plus a few extra perks. To compare and learn more about Ring Protect visit <https://ring.com/protect-plans> to choose a plan that works for you.

Do I need Ring Protect to use Video Doorbell (2020 Release)?

No. You can still use your doorbell or camera to watch over your home and answer the door from anywhere, even without a subscription to Ring Protect. Without Ring Protect, you'll still receive real-time notifications when anyone comes to your door, and you can answer the notifications to see, hear and speak to visitors in real time right from your mobile device.

However, without a subscription to Ring Protect, you won't be able to review any videos that you missed in real time, and you won't be able to save your videos or share them with anyone. Visit <https://ring.com/protect-plans> to learn more about Ring Protect and to choose a plan that works for you.
