

## BRK.Z BRACKET MOUNTING INSTALLATION GUIDE

### INSTRUCTIONS

1. Z-brackets are designed to fit into the rear channel on supported speakers to enable easy wall mounting.

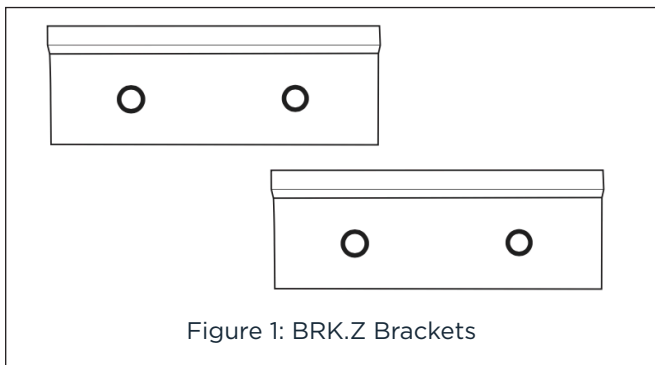

Figure 1: BRK.Z Brackets

2. After choosing an installation area (securing brackets to wall studs is recommended), level and mark both bracket heights, so they are level to each other.

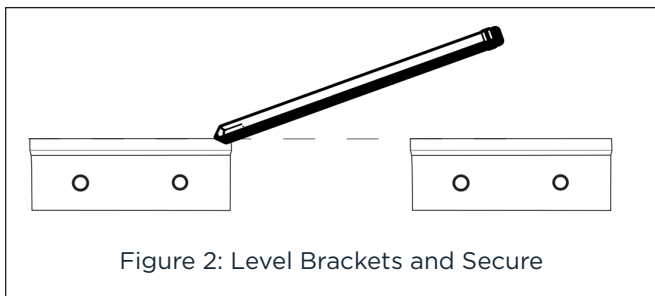

Figure 2: Level Brackets and Secure

3. Secure the brackets to the wall.

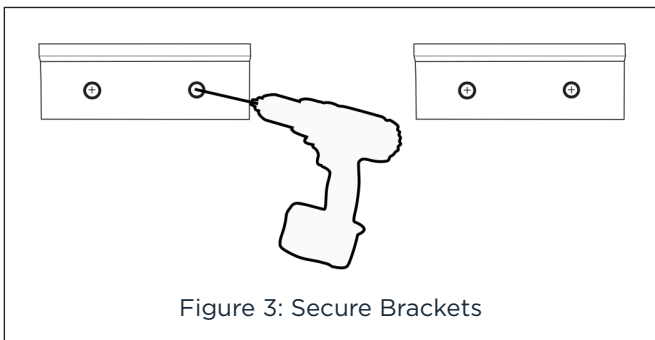

Figure 3: Secure Brackets

4. Hang speaker on the wall and ensure that it is level and at the appropriate height.

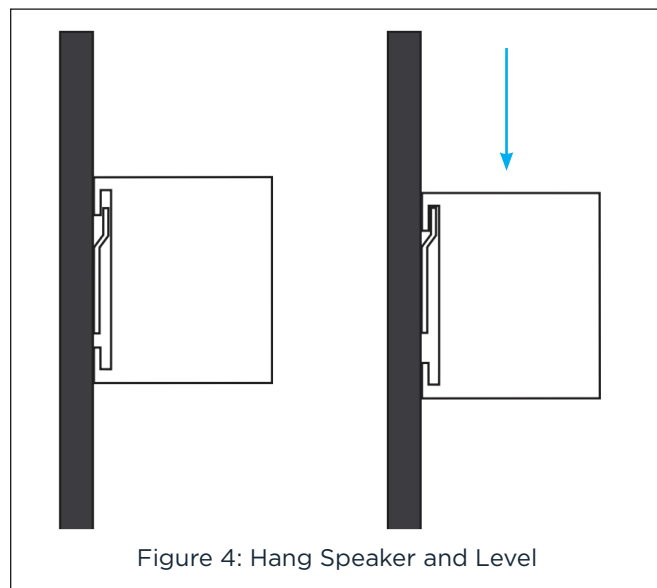

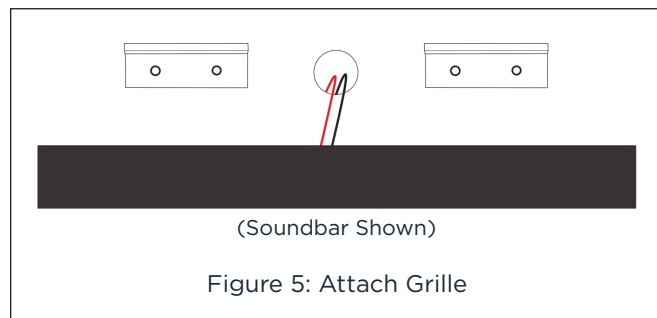

Figure 4: Hang Speaker and Level

5. If the speaker is at an acceptable height/level, then wire and hang the speaker and attach the grille to complete the installation.
