

Ab Pet Plus 2 In 1 Spray Mop - Kd

LA034245KDUFFEU7

Please retain instructions for future reference.

Care and use

Please retain these instructions for future reference. To assemble the mop, first slot the poles together until they click into place, and then attach the pole to the mop head. Carefully lift the water tank away from the spray mop and unscrew the cap. Prepare a cleaning solution by mixing water with detergent or disinfectant according to the detergent manufacturer's instructions, and pour this mixture into the water tank, noting that bleach should not be used. Once filled, replace the cap and securely push the water tank back onto the spray mop. To activate the spray function, press the trigger located on the handle. After each use, ensure that the spray bottle is emptied. If you are using wipes, remove the mop pad and insert the corners of the wipe into the suction clips around the mop head. Please exercise caution by not filling the water tank with hot or boiling water and using the mop only on cool surfaces. Additionally, ensure that the mop is kept out of the reach of children.
